Vision for PCE Improvement Project

Improve the quality and timeliness of the referral, exam and reporting processes. This will be accomplished through development of standards and guidelines designed to improve consistency and enhance communication between the worker, therapist, attending provider, vocational provider and claim manager.

TOPIC	TIME
Safety Tip	12:30-12:35
Updates <ul style="list-style-type: none"> • Webinar • Foot and Ankle Resource • Complex Level 	12:35-12:45
FCE Standard Forms <ul style="list-style-type: none"> • Review feedback/form changes • UE Addendum • Cognitive Addendum 	12:45-1:30
What is Quality – what elements of a report would help determine if the FCE was high quality? What should L&I measure?	1:30-1:45
Break	1:45-2:00
Testing Elements – <ul style="list-style-type: none"> • What is the shortest test duration to call it a comprehensive FCE? • MET formula • Compare durational definitions for material handling • Musculoskeletal/psychosocial questionnaires inventory 	2:00- 3:20
Round Robin	3:20-3:30
