- ▶ **Body areas:** For IMEs, the following **body areas** are recognized:

- Head, including the face,
- Neck,
- Chest, including breasts and axilla,
- Abdomen,
- Genitalia, groin, buttock,
- Back, *and*
- Each extremity.

Note: Each extremity is counted **once per extremity examined**, when determining standard or complex codes.

- ▶ **Bundled:** A bundled procedure code isn't payable separately because its value is accounted for and included in the payment for other services. Bundled codes are identified in the fee schedules.

Pharmacy and DME providers can bill HCPCS codes listed as bundled in the fee schedules. This is because, for these provider types, there isn't an office visit or a procedure into which supplies can be bundled.

Link: For the legal definition of "bundled," see: [WAC 296-20-01002](#).

- ▶ **By report (BR):** A code listed in the fee schedule as BR doesn't have an established fee because the service is too unusual, variable, or new. When billing for the code, the provider must provide a report that defines or describes the services or procedures. **The insurer will determine an appropriate fee based on the report.**

Link: For more information, see [WAC 296-20-01002](#).

▶ **Local code modifier mentioned in this chapter:**

-7N X-rays and laboratory services in conjunction with an IME

When X-rays, laboratory, and other diagnostic tests are provided with an exam, identify the service(s) by adding the **modifier – 7N** to the usual procedure number.

Link: Procedure codes are listed in the L&I Professional Services Fee Schedules, Radiology and Laboratory Sections, available at: <http://feeschedules.Lni.wa.gov>.

▶ **Organ systems:** For IMEs, the following **organ systems** are recognized:

- Eyes,
- Ears, nose, mouth, and throat,
- Cardiovascular,
- Gastrointestinal,
- Genitourinary,
- Respiratory,
- Musculoskeletal,
- Skin,
- Neurologic,
- Psychiatric, *and*
- Hematologic/ Lymphatic/ Immunologic.

► Requirements for billing**State Fund (L&I) provider account number requirements for IMEs**

For IMEs, examiners need one IME provider account number for each payee they wish to designate.

An IME examiner who isn't working through any IME firms will need just one IME number, which will also serve as their payee number.

Billing for IME's

<p>Use only the IME examiner's provider account number/NPI for these CPT® or local billing codes (see code description above for more details):</p>			<p>The following codes may be billed by the IME firm or the IME examiner, depending on who renders the service. (see code description above for more details)</p>
1104M	1120M	1135M	1124M
1105M	1123M	1136M	1132M
1108M	1125M	1137M	1133M
1109M	1128M	1138M

1112M	1130M	1038M	
1118M	1134M	1066M	
		99441-99443	

Bills for testing or other services performed in conjunction with an IME must be submitted by the provider who rendered the service ([WAC 296-20-125\(3\)\(o\)](#)). These services include:

- X-ray, diagnostic laboratory tests in conjunction with IME (append modifier 7N).
- Neuropsychological evaluations and testing CPT® codes – 90791, 96101, 96102, 96118, 96119. (For more detailed information on neuropsychological services refer to [Psychiatric Services](#) chapter.
- Performance Based Physical Capacities Evaluations – 1045M

Standard and complex coding

The exam should be sufficient to achieve the purpose and reason the exam was requested.

Choose the code based on the number of body areas or organ systems that need to be examined to fully evaluate the accepted condition(s) or the condition(s) contended as work related.

Be sure the report documents the relationship of the areas examined to the accepted or contended conditions.

The definitions of **body areas** and **organ systems** from the Current Procedural Terminology (CPT®) book must be used to distinguish between standard and complex IMEs.

Note: See definitions of **body areas** and **organ systems** in “Definitions” at the beginning of this chapter.

▶ Payment limits
