

## ***Good Doctor DO***

10:46 Tuesday, August 30, 20XX 1

Dear COHE Provider

Thank you for your participation in COHE. What follows is your quarterly reporting covering the period January 1, 20XX and June 30, 20XX. We are providing you information about all the worker's compensation patients you treated in this period and how you were able to implement COHE best practices for those patients. A provider must be listed as — "attending provider" on a claim some time during the reporting period to be counted in this reporting.

This reporting is generated through analyzing administrative and billing data available in our systems, and as with all data in information systems, it is susceptible to error and inaccuracy. The billing data in this report is based on paid, not submitted, bills.

We are happy to work with you to answer specific questions. Please contact your COHE for more information.

COHE Program  
Labor & Industries

## ***Good Doctor DO***

10:46 Tuesday, August 30, 20XX 2

Thank you for being an attending provider in the COHE. Your results for this reporting period are as follows:

- You were the attending provider for 19 claims at Happy Health Clinic during the reporting period.
- Your state funded workers compensation claims were open an average of 66 days, with an average of 0 days of time-loss.
- You have 2 patient(s) that received opioids for more than 7 cumulative days during the first six weeks of treatment
- You have 0 patient(s) on more than 100 MED of opioids for 15 or more consecutive days.
- You have 0 patients that received opioids on their first medical visit.

This report includes claims for which you were either the initiating and/or an attending provider between January 1, 2011 and June 30, 2011 and excludes all fatal and catastrophic claims.

For more detailed information, please refer to the attached materials. If you have any questions, please contact your COHE Project Director.

**Time-Loss Claims for Fractures, Back Injuries and Carpal Tunnel Syndrome--Open Claims**

	Open Claims				
	Back				
	# Open Claims	Median Days Open	Median Time-Loss Days	% of Days Open that were Time-Loss	Median Days as AP
<b>DOCTOR GOOD DO</b>	1	83	3	3%	85

**Notes:**

1. Data includes all claims that were open for the entire reporting period.
2. Median Time-Loss Days is the median number of time-loss days for all open claims with the specified diagnosis.
3. % of Days Open that were Time-Loss is the sum of all time-loss days divided by the sum of all Days Open.
4. Only those diagnoses for which you or a provider in your comparison group have a claim are listed in the report.
5. Median Days as AP is the median number of days a specific provider has been an attending provider for a set of claims. This number can be slightly greater than the # of Days Open because of L&I's initial processing and rules concerning initiation of occupational disease claims.

HATTER MAD T PAC	.	2	.
MOUSE MORTIMER MD	.	.	.
LOXY FOXY PAC	.	2	.
TUCK FRIAR B PAC	.	1	.

**Notes:**

1. All prescription data obtained from the L&I pharmacy billing records only.
2. The first measure is a measure of chronic opioid use, while the remaining two are focused on new claims.
3. Fracture claims are excluded from Workers with Opioid Rx on First Medical Visit.
4. AMDG (Agency Medical Directors' Group) recommends that no outpatient care include Morphine Equivalent Dose (MED) above 120.
5. Patients may appear in multiple opioid measures.
6. The patient is the one being measured, so if the prescription was given by another provider, the opioid is reported to the provider listed as 'attending'.
