Slide 6

Healthy Worker 2020

Best Practices for:

Primary Occupational Health Care

Ensure ongoing care provided to injured workers is delivered using available best practices.

Surgical Care

Ensure surgical care provided to injured workers is delivered using available best practices; explore the opportunity to use innovative payment methods.

Chronic Pain and Behavioral Health Care

Implement methods to prevent chronic pain and/or behavioral health issues from creating or extending disability. Create a stepped care pathway that includes collaborative care and appropriate clinical care steps.

Physical Medicine

Develop best practices for physical therapists that will encourage early use of active care with a focus on function.

Catastrophic Care Services

Implement internal and external support systems for IW with catastrophic injuries.

Model of Care

Care Coordination

Opioid Prescribing Best Practices

Incentive Methods

Operations

Patient-Centered Goal:

Achieving the best quality of life and outcomes for workers at the best value, using the simplest means.

What should we consider to help us prioritize these efforts:

- Maximizing provider adoption of best practices?
- Raising standards for existing best practices?
- Targeting new providers to join COHE (specific geography, or specialty)?
- Expanding or limiting scope of work for sponsoring organizations?
- Increasing or limiting the number of sponsoring organizations?
- Other considerations?
