Examination Applicant Information

16 hours of approved continuing education, with a minimum of 4 hours of Industry Related Electrical, is required prior to testing for journeyman or residential specialty exams.

Applications for examinations **Must be processed by the Tumwater office at least two (2) weeks prior to the examination date.**

This allows adequate time for verification and notification by mail of acceptance of applicant. Mail applications to:

Department of Labor & Industries
Specialty Compliance Services Division
Plumber Certification Section
PO Box 44470
Olympia WA 98504-4470

If you are unable to take the examination on the date scheduled, you **Must call the Tumwater office prior to the day of the exam and reschedule.** If you do not reschedule or fail to show for the exam, you will forfeit the examination fee and must submit another examination fee to be scheduled.

If you wish to **Reschedule your examination** or have any questions, please call (360) 902-5207.

The Journeyman and Residential Specialty examination is based on the 2009 Uniform Plumbing Code. The examination will also include questions based on Washington State Building Code Council Amendments to the plumbing code. The 3-part examination will consist of 100 Uniform Plumbing Code questions taken from Chapters 1 through 10, a waste & vent pipe sizing drawing based on sizing and design methods from Chapter 7 and a water pipe sizing drawing based on sizing and design methods from chapter 6. Provided are Drainage Fixture Unit Values table 7-3, Water Supply Fixture Units table 6-5, Fixture Unit table 6-6, and Flushometer Fixture Units table 6-7. No other tables will be provided.

The Backflow Specialty examination will consist of questions relating to safety, regulatory, operation, and trouble shooting of backflow prevention assemblies.

The Medical Gas Exam will consist of questions relating to the NFPA 99C Gas and Vacuum Systems.

For:

- Uniform Plumbing Code books
- Washington State Amendments
- NFPA 99C Gas and Vacuum Systems
