

WASHINGTON STATE LOGGER SAFETY INITIATIVE

Keeping Washington loggers safe.

L&I offers a variety of resources that can help improve safety and save your business money:

- Attend a [free L&I workshop](#) to learn how to keep your insurance cost low.
- Take advantage of our [free safety, health, risk and/or work design consultations](#). They can help you with your safety program and controlling your insurance rates.
- Develop and implement your required written [Accident Prevention Program](#). For help, contact [DOSH Consultation Services](#).
- Always follow up on near misses and correct any safety hazards identified.
- File the online employer Report of Accident (ROA) immediately following any workplace accidents: www.FileFast.Lni.wa.gov
- Use the [Stay at Work Program](#) as a starting point for your return-to-work planning.
- Join the [Logger Safety Initiative](#). Logging companies that do manual work can reduce their workers' compensation costs by up to 20 percent for participating in this voluntary program.
