Course Descriptions and Presenters

Hiring "Independent Contractors" in Washington State / Prime Contractor Liability (*All contractors*) – Learn the distinction between an "independent contractor" and an employee. This course will help you understand when you must meet safety standards, pay workers' compensation premiums, meet wage & hour requirements and pay unemployment insurance. You will also learn about potential liabilities for your Sub-Contractors Workers Compensation premiums. Presented by Allen Thurston, Audit Supervisor at Labor & Industries.

***Plumbing Code Training – Part 1** – Learn common mistakes, code clarifications and how to save your company time and money. Presented by Bruce Springer, Plumbing Technical Specialist, a 28 year journeyman plumber and 8 year veteran of Labor and Industries.

*****Plumbing Code Training – Part 2** – Current code, the UPC and Washington Amendments, highlights of recent code changes. Presented by Bruce Springer, Plumbing Technical Specialist, a 28 year journeyman plumber and 8 year veteran of Labor and Industries.

***Plumbing Contractors – What You Need to Know** (*All contractors*) – Proof of hours, what are the employer requirements, common causes that generate an audit and what is the difference between a trainee and an apprentice. Presented by Bruce Springer, Plumbing Technical Specialist, a 28 year journeyman plumber and 8 year veteran of Labor and Industries. (Plumbing Industry Related CEU course)

*** Electrical Licensing 101** (*All contractors*) - This class will explore the breakfast chat stories about who really can do electrical work, when electrical permits are needed, and is there any such thing as minor work. New permit types, licensing rules, and available on-line services will be discussed. Presented by Faith Jeffery, Electrical ECORE Program Manager (Plumber IR CEU Course. Electrician /admin /trainee CEU credit is not given.)

Prevailing Wage (*Experienced contractor*) – Intents and affidavits on line, completing and filing. Scopes of work and prevailing wage rates – where to find them and how they are set. Certified payroll and other information you need to know when working on a public works project. Presented by Laura Herman, Prevailing Wage Technical Specialist with L&I.

Advanced Prevailing Wage (*Experienced Contractors*) -Advanced discussion of state prevailing wage law requirements. This workshop is intended for contractors that already have a solid foundation of knowledge of prevailing wage on public works requirements. The workshop focus will be on advanced topics with an open discussion of problems, issues and correct resolutions. We will have certain key topics prepared but will focus primarily on your questions and issues. Please bring your public works and prevailing wage questions and issues! Presented by Laura Herman, Technical Specialist at L&I.

State Taxes Sales, Use and B&O (*All contractors*) – Get your questions answered about use taxes, B&O filing and other useful information from the Department of Revenue. Presented by Melissa Sharp, Tax Payer Information Specialist with DOR's Taxpayer Education Section.

Contracting on Publicly Funded Projects (*Experienced Contractors*) - This seminar will provide an overview of what you need to know when contracting on a publicly owned project, including bidding, contract drafting and legal issues specific to public projects. Presented by Brett Hill, Ahlers & Cressman PLLC

Contracts for General Contractors! (*All contractors*)– If you've ever wondered what you should have in your construction contract, this is the course for you. Seth Millstein will review "must-have" clauses, discuss ways to effectively edit a general contractor's contract, and answer general questions about the contracting process. Presented by Brett Hill, Ahlers & Cressman PLLC

Everything You wanted to know about your L&I Account (*New contractor*) - Learn what happens when you open your L&I account. What are risk classes and how are they assigned? Learn how rates are set and adjusted; how claims affect rates; what you can do to control your company's rates; and about the processes for filing your quarterly premium reports. Presented by Bill Moomau, Policy Manager, L&I.

New Contractor Overview (*New contractor*) – Information on how to protect your contractor registration status: Model disclosure requirements, advertising as a contractor, exemptions, fraud reporting and violations. Presented by Rebecca Llewellyn, Outreach Specialist with L&I.

Small Business Planning (*All contractors*) – Practical approaches to small business planning and the importance of a business plan. Information will include key elements of a quality business plan and low or no-cost small business resources to assist you to start, run and grow your construction business. Presented by Ted Schinzel of the Small Business Administration.

Cash Flow Management - Understand Your Business Financials: (*All Contractors*) Determine and anticipate the cash flow needs of your business so you don't run out of money. Learn how to use financial statements as a management tool. Presented by Ted Schinzel, Small Business Administration

Preparing Your Contract and Warranty – Learn the most important terms and conditions to have in your contract, what they mean, and why they need to be there. This course will cover warranties, scope of work, change orders, correction of work, building code issues, payment issues, commencement and completion dates, delay issues, fixed price contracts vs. T&M contracts, allowances, liquidated damages and dispute resolution. It is recommended that each attendee bring a copy of his/her company contract to review and mark up during the course. Presented by Linville Law Firm.

Surviving as a Subcontractor – Learn why and how to utilize conditional bidding and inclusions, exclusions and alternates in your bidding process in order to limit your liability and provide the general contractor with expectations which are reasonable. Learn the common subcontract terms and pitfalls to avoid. The class will review problematic clauses such as pay-when-paid, change directives, warranties, pass through claims, termination for convenience, scheduling, notice, venue, and dispute resolution. Learn the basics of Washington law with the regard to the recording of liens and the filing of claims against payment bonds and retainages. Presented by Linville Law Firm.

Protecting Your Business and Your Customer – The laws of Washington afford certain protections to your customers and those laws also require that you provide certain informational notices to your customers. Learn how to protect your business through proper formation of the appropriate business entity such as a corporation or an LLC, learn who can and cannot file claims against your contractor's registration bond, and learn how to protect your customer against unwanted liens from your subcontractors and their employees. Learn the value of covenants not to compete, employee manuals, and restrictive employment agreements. Presented by Linville Law Firm.

Managing the Difficult Customer (And Getting Paid for Your Work) – Learn how to deal with the customer who has turned out to be more difficult than you anticipated. Better yet, learn how to avoid the "lemon" customer to begin with. Learn how to create a contract that limits the potential for disputes. Learn how to manage and control both your customer and the project so that everyone is satisfied. Presented by Linville Law Firm.

@ **Manufactured Housing Installer** (Continuing Education Credit) – Learn the latest statute, code and rule changes and the most common installation problems. Presented by John McMillan of the Factory Assembled Structure Program at Labor and Industries.

Business Building Blocks (All contractors) – Vital financial management tools to improve your cash flow and relevant guidance to manage payroll. We will discuss the key elements of financial statements, basic tax and recordkeeping requirements, tips to monitor employees, and the fundamentals of cash management. Lastly, we will take a look at the four key financial ratios of your business, compare how you stack up compared to the DOW Top 30, and discuss what changes need to be addressed. Presented by Patrick McDonald, CPA, Liberty Creek Financial Services, P.S.

Free Contractor Training Days

Over 8,500 contractors and their employees have taken part in these Contractor Training Days. Take a look at what a few of them had to say about the program.

- *"I really enjoyed the workshop! Great learning opportunity and great instructors!"*
- *"As a new practitioner in this area, the presentation and handouts were excellent and very informative"*
- *"Thank you for this "free" opportunity to learn more and help our business"*

If you are interested in other Contractor Training Day Dates, please check our website at: [Contractors.LNI.Wa.gov](http://www.lni.wa.gov) or sign up for our Training Newsletter Newsletter at: <http://www.lni.wa.gov/Main/Listservs/TradesLicensing>

Our Volunteer Speakers, Associations and Agencies:

A huge thank you to Northwest Independent Contractors Association!

As well as: Associated General Contractors (AGC), Building Industry Association of Washington (BIAW), Linville Law Firm, LLC, Impact Law Firm, Ahlers & Cressman PLLC and all of the state agencies.

OSHA 10 and OSHA 7600 courses are offered by The Northwest Independent Contractors Association

Introduction to OSHA (WISHA) and the Culture of Safety – Learn what responsibilities contractors have for worker safety and what rights employees have to a safe and healthy workplace. Learn how a viable and comprehensive accident prevention / safety program can save you money. Receive tools to develop or fine-tune your accident prevention program and ideas to develop a “Safety Culture” in your workplace.

Fall Protection: – Workers who work above 4’ from a platform must use fall protection and be trained on its use or implementation. Often at 10’, personal fall arrest or similar systems must be used. This class covers anchors and their requirements, personal fall arrest systems, written Fall Protection Plans (both on and off the jobsite) and covers the required training for your employees. .

Motor Vehicle and Equipment Safety: This class covers common causes of struck by fatalities including motor vehicle accidents and accidents involving workers being hit by equipment while in the swing radius. Contractors will learn several techniques to having a safer jobsite when work around equipment. (Focus Four Struck By)

Ladders, Scaffolds and Stairways: - Basic ladder, scaffold, and stairway safety requirements are covered in this class. Learn the safety regulations and best practices for their use and construction.

Excavation and Trenching Awareness: Excavation and Trenching accidents are often fatal. Knowing the basic causes of collapse, the requirements for basic trench safety, available products, and the need for a competent person can save lives at the jobsite. (Focus Four- Caught In Between)

Health Hazards in Construction- Heat Related Rules and Fire Extinguisher Use: - Heat Stress can affect all outdoor workers. This class covers Employer requirements to provide water on jobsites, signs and symptoms of heat related illness, emergency procedures for heat related emergencies, and related topics. We will also cover Fire Extinguisher training and requirements.

Tool Basics/ Electrical Safety: This class covers hazards associated with construction tools, including serious injury and death. The electrical portion covers jobsite requirements for electrical safety and dangers inherent with working with electricity. (Focus Four Electrocutions)

Respiratory Protection/Hazard Communication: This class is required for employers whose employees wear respirators. All employees who wear respirators must receive respirator training, medical evaluations, and fit testing. All these are provided through this program. (see Medical Evaluations/Fit Testing) Hazard Communication covers training and written plan requirements for contractors who work with chemicals such as paints, primers, epoxy’s, and glues. MSDS sheet requirements are also covered.

OSHA 7600

Introduction to Disasters Learn what responsibilities Contractors have for worker safety and what rights employees even during a Natural Disaster or Terrorist Event. Learn about potential disasters in the Pacific Northwest and what OSHA, FEMA, WA Department of Emergency Management and other agencies are doing to prepare. Learn the different descriptions and training required for Responders and workers involved in post-disaster operations.

Safety Hazards in Disasters: – Workers are faced with some unique and some familiar safety hazards during a disaster response or recovery. Learn how to identify safety hazards and precautions that will protect workers. Topics covered include building safety, electrocutions, confined spaces, chainsaw hazards, falls and other hazards specific to disasters.

Preparedness, PPE, and Go-Bags: This class covers what businesses and families can do to prepare for disasters. Specifics of comfort kits or ‘go-bags’ will be discussed, as well as family plans, business plans and Personal Protective equipment that workers need will be covered.

Incident Command: - The basic concept of the National Incident Management System’s Incident Command structure will be covered in this course. Businesses will see where they fall in the structure when serving as skilled construction support to first responders.

Health Hazards in Construction: This course covers the acute and chronic health effects that could result from workers being exposed to animals, illnesses, and chemicals during disasters. Personal protective equipment and monitoring will be shown has helpful precautions to avoid health hazards. .

CBRNE: Learn about Terrorism threats such as Chemical, Biological, Radiological, Nuclear, and Explosive weapons. Workers will learn to identify potential terrorism events and what they can do to protect themselves.

Decontamination: Workers will learn the value of Decontamination for CBRNE and other health hazards caused after a disaster. Simple decontamination procedures will be discussed.

Traumatic Incident Stress Awareness: - Disasters inherently cause stressful conditions that can impact rescue and recovery workers. Under this program, learn to expect and manage stress by applying practical suggestions and making a plan to care for Disaster Site Workers.

Respiratory Protection/Hazard Communications: This course covers basic respirator use for Disaster Site Workers. The class covers types of respirators, their uses and limitation, cartridges and filters and proper use. STUDENTS ARE REQUIRED TO BRING THEIR OWN 3M or Similar Half Mask Respirator to the course. Fit testing and medical evaluations will be available upon request.
