

Powered Platforms

Chapter 296-870 WAC

Scope

This chapter covers permanent powered platform installations dedicated to interior or exterior building maintenance of a specific structure or group of structures.

Building maintenance includes, but isn't limited to, tasks such as window cleaning, caulking, metal polishing, and reglazing.

Exemption:

This chapter doesn't apply to suspended scaffolds covered by a separate chapter, Scaffolds, chapter 296-874 WAC.

Definition:

A **powered platform installation** consists of all the equipment and the parts of the building involved with using the powered platform for building maintenance.
