

**A**

- Accuracy
  - exposure evaluations, **110-4**
  - exposure records, **110-12-13**
- Action level
  - definition, **190-1**
  - exposure control areas, **110-13**
  - medical removal, **120-13**
  - periodic exposure evaluations, **120-2-3**
  - scope, section application (table 2), **100-3**
  - training, **110-9**
- Administrative controls
  - (see exposure control areas)
- Air monitoring methods
  - (see sampling methods)
- Airborne concentrations, exposure evaluations, **110-4**
- Appendices, references to another chapter, **110-10, 130-6-7**
- Application, chapter, scope, **100-1-3**
- Area samples, collecting, **110-5-8**
- Authorized personnel, **190-1, 110-5**

**B**

- Barge and tanker cleaning
  - exemptions, **130-2**
  - exposure control requirements (table 6), **130-4**
  - evaluations, exposure **110-5**
- Basic rules, **110-1-13**
- Breathing zone, exposure monitoring, **110-7**

**C**

- Cartridge or canister, **130-6**
- Changes in exposure, exposure evaluations, **110-4**
- Chapter application, scope, **100-1-3**
- Coke ovens, exemptions, **100-1**
- Collection, air samples, exposure evaluations (step 6), **110-7-8**
- Colorimetric indicator tubes (step 2-note), **110-6**
- Compliance program
  - (see exposure control areas, plan)
- Confidence level (see accuracy)
- Confidential, medical records (note), **120-17**

## Containers

- exposure evaluation (step 2), **110-6**
- labeling, preventative practices, **110-2**
- Content of medical evaluations (table 4), **120-9-12**
- Controls (see exposure control areas)
- Corrective actions, notifications, **110-11-12**
  - (see also exposure control areas)
- Costs to employees, **120-4, 120-14**

**D**

- Declination form, medical evaluations, helpful tool, **R-3**
- Definitions, **190-1-3**
- Designated representative
  - exposure monitoring observation, **110-11**
  - exposure control, **130-2**
- Detector tubes (see colorimetric indicator tubes)
- Documentation
  - exposure controls requirements (table 6), **130-4**
  - exposure evaluation process, **110-5**
  - periodic exposure evaluations, **120-2**

**E**

- Emergencies
  - sampling methods, **110-7**
  - additional requirements, **110-2**
  - respirators, **130-5**
  - medical evaluation process, **120-4, 120-6, 120-9-10**
- Employee
  - exposure control plan, **130-2**
  - exposure records, **110-12-13**
  - medical evaluations, **120-4-12**
  - notification, **110-11-12**
  - observation, exposure monitoring, **110-11**
  - removal from exposure, **120-14-16**
  - selection, exposure evaluations, **110-6**
  - training, **110-9-10**
- Enclosures, exposure control areas (note), **110-3**
- Engineering controls, **110-4**
  - (see also exposure controls )
- Escape respirators, **130-5**
- Essential information
  - health information about benzene, **600-1-3**
  - medical guidelines, **600-4-10**

# Benzene

Chapter 296-849 WAC

## Index

- Evaluations, exposure
  - control plan, **130-2**
  - notifications, **110-11-12**
  - periodic, **120-2-3**
  - process, **110-4**
  - scope, **100-1-3**
- Evaluations, medical
  - all requirements, **120-4-12**
  - declination form, **R-3**
  - training, **110-9-10**
  - removal, **120-14-16**
  - recordkeeping, **120-17**
- Exemptions, **100-1, 130-2**
- Exposure and medical monitoring, **120-1-17**
- Exposure control
  - all requirements, **130-5**
  - areas, **110-3**
  - corrective actions, **110-11-12**
  - evaluations, **110-4-6**
  - plan, **130-2**
  - records, **110-12-13**
  - respirators, **130-5**
- Exposure evaluation process, **110-7**  
(See also evaluations, exposure)
- Exposure monitoring, **110-4-8**
  - chapter application (table 2), **100-3**
  - observations, **110-11**
  - exposure records, **110-6, 110-12-13**  
(see also recordkeeping)
- Extended work shifts, (step 6, note), **110-8**
- Eye protection, **110-9**

## G

- Gas mask, **130-5-6**
- Gasoline and other fuels, exemptions, **100-1**

## H

- Handling materials, exposure evaluations, **110-3**
- Hazard communication, **110-10**
- Helpful tool, declination form for medical evaluations, **R-3**
- Hematologists
  - medical evaluations, **120-11-12**
  - medical removal, **120-13-16**

## I

- Internist
  - medical follow-up requirements (table 5), **120-11-12**
  - medical removal, **120-13-16**

Initial exposure evaluation (see evaluations, exposure)

## L

- Labeling, preventive practices, **110-2**
- Laboratories
  - collecting air samples (note, step 6), **110-7-8**
  - exemptions, **100-1**
  - medical evaluation process (step 3 and table 5), **120-6, 120-11**
- Leaks (see releases)
- Licensed health care professional (LHCP)
  - employee removal from exposure, **120-14-16**
  - medical evaluations, **120-6-12**
  - medical records, **120-17**
  - respirators, **130-6**
- Loading or unloading, labeling requirements, **100-2, 110-2**

## M

- Markings, exposure control areas (note), **110-3**
- Material handling, exposure evaluations, **110-5**
- Medical
  - declination form, **R-3**
  - evaluations, **120-6-12**
  - recordkeeping, **120-17**
  - removal, **120-13-16**
  - training, **110-9-10**
- Monitoring devices, colorimetric indicator tubes or real-time (step 2-note), **110-6**

## N

- Notifications, employee, **110-11-12**

## O

- Observers, exposure monitoring, **110-11**
- Oil and gas drilling, exemptions, **100-1**
- Opinion, written, medical evaluations (step 4 and 6), **120-7-8**

**P**

- PAPR (powered air-purifying respirator), **130-6**
- PEL (permissible exposure limits)
  - definitions, **190-1-3**
  - exposure control, **110-3**, **130-130-2**, **130-4**
  - medical evaluations, **120-4**
  - respirators, **130-5**
  - scope (table 2), **100-3**
- Periodic exposure evaluation, **120-2-3**
  - all requirements, **120-2-3**
  - exemptions, **100-1**
- Personal protective equipment (PPE)
  - exposure controls, **130-2**, **130-3**
  - medical evaluation process, **120-7**
  - observers for exposure monitoring, **110-11**
  - references to another chapter, **110-9**
- Personnel, changes in exposure evaluation, **110-4**
- Physicians, **120-6**, **120-13-16**  
(see also hematologist and internist)
- Posting
  - employee notifications, **110-11-12**
  - signs, **110-3**
- Preventive practices, **110-2**
- Processes, changes in
  - exposure evaluations, **110-4**
  - medical evaluations, **120-10**
- Processing plants, natural gas, exemptions, **100-1**
- Production, changes in exposure evaluations, **110-4**
- Pulmonary function tests (step 3 and table 4),  
**120-6**, **120-9-10**

**R**

- Real-time monitors (step 2, note), **110-6**
- Records, exposure (see recordkeeping, exposure records)
- Recordkeeping
  - all requirements, **120-17**
  - exposure records, **110-12-13**
  - monitoring results, **110-6**
  - medical removal, **120-15**
- Referrals
  - medical follow-up requirements (table 5), **120-11-12**
  - medical removal, **120-13-15**
- Regulated areas (see exposure control areas)

**Releases**

- exposure evaluations, **110-4**
- references to additional requirements, **110-2**

**Removal, medical, 120-13-16****Requirements that apply to specific tasks (table 1), 100-2****Respirators**

- all requirements, **130-5-6**
- exposure controls, **130-3-4**
- exposure evaluations, **110-3**
- medical evaluations, **120-4**, **120-7**, **120-9-10**
- observers for exposure monitoring, **110-11**
- recordkeeping, **110-12-13**
- signs, posting, **110-3**

**Respiratory hazards, exposure evaluations, 110-4****S**

- Sampling methods, **110-7-8** (steps 6 and 7), **110-12**
- SCBA (self-contained breathing apparatus), **130-5**
- Scope, chapter application, **100-1**
- Shift, work
  - exposure evaluations (step 4), **110-6**
  - periodic exposure evaluations, **120-2**
- Signs, posting, exposure control areas, **110-3**
- Skin protection, **110-9**
- Solid materials, exemptions, **100-1**
- Spills (see releases)
- Spirometry, medical evaluations, (step 3), **120-6**
- STEL (short-term exposure limits)
  - definition, **190-1-3**
  - exposure control areas, **110-3**
  - exposure evaluation process, **110-6**
  - periodic exposure evaluations (table 3), **120-3**
  - scope, **100-1-3**

**T****Tables**

- content of medical evaluations (table 4), **120-9-10**
- exposure control requirements (table 6), **130-4**
- general health information about benzene (table 7), **600-1-3**
- medical guidelines for evaluating employees exposed to benzene (table 8), **600-4-10**
- medical follow-up requirements (table 5), **120-11-12**
- periodic exposure evaluation frequencies (table 3), **120-3**

# Benzene

Chapter 296-849 WAC

## Index

- requirements that apply to specific tasks (table 1), **100-2**
- section application (table 2), **100-3**
- Tankers (see barge and tanker cleaning)
- Tasks, specific, requirements that apply (table 1), scope, **100-2**
- Tire builders, medical evaluations, **120-5**
- Trace amounts, exemptions, **100-1**
- Training
  - all requirements, **110-9-10**
  - medical evaluations, **120-6**
  - medical removal, **120-13,16**
- TWA<sub>8</sub>
  - definitions, **190-1-3**
  - exposure control areas, **130-1-2**
  - periodic exposure evaluations, (table 3), **120-3**
  - scope (section application) (table 2), **100-3**

## U

- Urinary phenol test (table 5), **120-10**

## V

- Ventilation systems, exposure evaluation process, **110-4**

## W

- Warnings, preventative practices, **110-3**
- Work areas
  - exposure evaluations, **110-6**
  - training, **110-9-10**  
(see also exposure controls)
- Work hours, normal, medical evaluations, **120-4**
- Work practices, exposure evaluation process, **110-4**
- Work shift
  - exposure evaluations (step 4), **110-6**
  - periodic exposure evaluations, **120-2**
- Work tasks, scope (table 1), **100-2**
- Written opinions
  - medical evaluations (step 4), **120-7-8**
  - medical records, **120-17**
  - respirators, **130-6**
