**Purpose:** Prevailing wage rates on public work projects are determined and enforced according to the trade or occupation or "classification" of work. These classifications are described in the "scopes of work" rules. The Electronic Technician regulation is a pre-existing scope of work rule. Electronic technicians work with low voltage electrical systems. Under the current rule, electronic technicians may pull low voltage wire through metallic conduit that is no longer than 10 feet nor larger than one inch. The purpose of this rulemaking is to allow electronic technicians to pull low voltage wire through any length or width of conduit, with the exception of wire for fire alarm systems. The proposed rule will clear up ambiguities raised by stakeholders.

**EMERGENCY RULE ONLY**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.  
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
