

AMENDATORY SECTION (Amending Order 73-3, filed 5/7/73)

WAC 296-62-09013 Temperature, radiant heat, or temperature-humidity combinations. (~~((1) — Workmen))~~ Workers subjected to temperature extremes, radiant heat, humidity, or air velocity combinations which, over a period of time, are likely to produce physiological responses which are harmful shall be afforded protection by use of adequate controls, methods or procedures, or protective clothing. (~~(This shall not be construed to apply to normal occupations under atmospheric conditions which may be expected in the area except that special provisions which are required by other regulations for certain areas or occupations shall prevail.)~~)
