Purpose:

The department is updating the American National Standards Institute (ANSI) reference to the most current edition. This change will update from the 1970 edition to the 1997 edition. The ANSI being updated is A10.9-1997, Concrete and Masonry Work Safety Requirements. In addition, an internal reference was also updated. See attachment (1).

These revisions will make the requirements of DOSH's Concrete, Concrete Forms, Shoring, and Masonry Construction Standard consistent with current industry practices, thereby eliminating confusion and clarifying employer obligations.
