

AMENDATORY SECTION (Amending WSR 07-01-014, filed 12/8/06, effective 12/8/06)

WAC 296-17A-0108 Classification 0108.

0108-00 Ditches and canals, N.O.C.

Applies to contractors engaged in the construction of ditches and canals not covered by another classification (N.O.C.). A ditch or canal consists of a long trench dug in the ground that will remain uncovered to serve as an artificial waterway or artificially improved river such as for irrigation, drainage, or a boundary line. Work contemplated by this classification includes digging of main irrigation canals or drainage ditches and all laterals extending from the canal or ditch, installation of pipe, making connections as needed, and filling or backfilling as needed. Equipment used by contractors subject to this classification includes a variety of machinery and equipment such as power shovels, backhoes, bulldozers, dump trucks, and mechanical or hand tool trench diggers.

This classification excludes asphalt surfacing/resurfacing which is to be reported separately in classification 0210 or 0212, and concrete construction which is to be reported separately in the applicable concrete construction classification(s).

0108-01 Sewer construction; septic tank installation

Applies to contractors engaged in the construction or repair of new or existing sewer lines and systems. This includes, but is not limited to, sewers, cesspools, drainpools, storm drains, and septic tanks including the drainfield construction. Work contemplated by this classification includes the installation and maintenance of all types of storm, sanitary or sewage lines and systems. Installation of these types of pipelines and systems occur entirely, or in part, at a depth greater than 3'. This classification includes such activities as excavation, trench digging, leveling trench with fill material such as sand or gravel, filling or backfilling, installation of force main type sewage work, the installation of storm sewer lines including the outfall construction of drain concrete boxes, catch basins, manholes, handling and laying of pipe (regardless of the size of pipe or depth below the ground), making connections, etc. Equipment used by contractors subject to this classification includes a variety of machinery and equipment such as power shovels, backhoes, bulldozers, dump trucks, (~~and mechanical or manual trench diggers~~) trenchless or directional boring equipment, and manual digging.

This classification excludes side sewer hookups (street to house) when performed by a plumbing contractor as part of a plumbing contract which is to be reported separately in

classification 0306; and sewer pipe cleaning including services engaged in line cleaning and unplugging of waste lines which is to be reported separately in classification 0306.

0108-02 Tanks, N.O.C. - underground: Installation, repair, or removal

Applies to contractors engaged in the installation, repair or removal of underground tanks not covered by another classification (N.O.C.) such as those used to store gas or oil. Activities include excavating or digging of holes, placement or removal of tank, and filling or backfilling. This classification makes no distinction as to the size of tank being placed or removed. Usually, the actual lifting into or out of the ground occurs with the use of a power shovel, front end loader or backhoe. Equipment used by contractors subject to this classification includes a variety of earth moving equipment such as power shovels, front end loaders, backhoes, bulldozers, and dump trucks.

AMENDATORY SECTION (Amending WSR 07-01-014, filed 12/8/06, effective 12/8/06)

WAC 296-17A-0502 Classification 0502.

0502-04 Carpet, vinyl, tile and other floor or counter top covering: Installation or removal

Applies to contractors engaged in the installation or removal of floor or counter top coverings such as, but not limited to, wall to wall carpet, vinyl, laminate, tile, or artificial turf in residential or commercial settings. Work contemplated by this classification includes, but is not limited to, the installation and/or removal of foam or rubber padding, floor coverings such as rugs or carpet, tack strips, door strips, subflooring (particle board or plywood), linoleum, vinyl, base board or door strips, and hauling existing floor covering debris away. This classification also includes the installation of clay or ceramic tiles on counter tops and backsplashes.

This classification excludes contractors engaged in the installation of counter tops as part of an interior finish carpentry or cabinetry contract which is to be reported separately in classification 0513; the installation of hardwood floors which is to be reported separately in classification 0513; the installation of brick, slate, marble or granite which is to be reported separately in classification 0302; installation of roofing tiles which is to be reported separately in classification 0507; and floor covering stores which are to be reported separately in the applicable classification.

0502-99 Carpet, vinyl, tile and other floor or counter top covering: Installation or removal (~~only to be assigned by the~~)

~~floor covering specialist))~~)

Applies to floor covering contractors who consider themselves to be independent contractors, have no employees, and have not elected owner coverage for themselves.

The purpose of assigning this classification is to allow the independent contractor the opportunity to be checked for "account in good standing" status for prime contractor liability.

Special note: Any contractor who hires employees or elects owner coverage is required to report in the applicable construction classification.

AMENDATORY SECTION (Amending WSR 07-12-047, filed 5/31/07, effective 7/1/07)

WAC 296-17A-0510 Classification 0510.

0510-00 Wood frame building: Construction or alterations, N.O.C.

Applies to contractors engaged in wood frame building construction or alterations not covered by another classification (N.O.C.). For the purposes of this classification, wood frame building construction means buildings erected exclusively of wood or wood products. This classification includes all building framing activities done in connection with wood frame building construction including the placement of roof trusses, sheathing roofs, installation of exterior building siding, and the installation of exterior doors and door frames. This classification also includes the installation of windows, window frames, and skylights when performed by framing workers as part of the framing contract on a wood frame building. This classification also includes the erection of log home shells at customer's location. The manufacturing of log homes in a permanent yard which includes peeling the logs, notching the logs with chainsaws, and assembly is to be reported in classification 1003-06.

This classification excludes all other phases of wood frame building construction not listed as part of the framing activities above such as, but not limited to, site preparation and excavation (0101); overhead or underground utilities, asphalt work, or concrete work which is to be reported separately in the applicable classification; new landscape work (0301); brick work (0302); stucco work (0303); plumbing work (0306); HVAC work (0307); carpet and tile work (0502); exterior painting (0504); roof work (0507); insulation work (0512); interior finish carpentry - interior doors, cabinets, fixtures or molding (0513); installation of garage doors (0514); installation of sheet metal siding, gutters, and nonstructural sheet metal patio covers/carports (0519); interior painting (0521); electrical work (0601) or wallboard installation, taping or texturing which are to be reported separately in the applicable classifications. For a more thorough description of the activities included and excluded from wood frame building

construction, review the Construction Industry Guide.

Special note: Classification 0510 also includes wood frame building alterations or remodel work when the activity involves building new additions. The term "new additions" is defined as adding on to an existing wood frame building (upwards or outwards) in which the use of structural supports and main bearing beams is required. This is distinguishable from classification 0516 - building repair or carpentry work that typically does not require the placement of structural supports or main bearing beams. The purpose of classification 0516 is to build or rebuild with nonstructural or bearing beams, or to replace an existing portion (including existing structural and bearing beams) of a wood frame building for appearances or as a result of deterioration to make it appear new again. Care should be exercised as the terminology to build, rebuild, remodel, construct or reconstruct is irrelevant to assignment of classification which should recognize what the project actually involves.

Guidelines:

Constructing a new wood frame building that never existed - 0510

Altering all or part of an existing wood frame building by adding on new additions - 0510

Remodeling all or part of an existing wood frame building *without* adding on new additions - 0516

Installation of wood or vinyl siding on a new or existing wood frame building - 0510

Installation of wood or vinyl siding on a new addition by the remodeling contractor - 0510-02

Installation of wood or vinyl siding on an existing structure by a remodeling contractor - 0516-00

Constructing a new wood garage that never existed - 0510

Altering all or part of an existing wood garage by adding on new additions - 0510

Remodeling all or part of an existing wood garage without adding on new additions - 0516

Constructing a new wood carport or wood shed that never existed - 0510

Rebuilding an existing wood carport or wood shed (all or part) with or without new additions - 0516

Construction of a new wood deck by the framing contractor when a new wood house is being built - 0510

Constructing or replacing a wood deck on an existing wood house - 0516

Constructing or replacing a wood deck for any type of nonwood building - 0516

Altering the existing interior of a wood frame building by adding exterior additions - 0510

Remodeling the existing interior of a wood frame building without adding exterior additions - 0516

Constructing, altering, or remodeling the interiors of nonwood frame buildings - 0516

Installation of windows, window frames, and skylights when

performed by framing workers as part of the framing contract of a wood frame building - 0510.

0510-99 Wood frame building: Construction or alteration, N.O.C. (only to be assigned by the wood framing specialist)

Applies to framing contractors, who consider themselves to be independent contractors, have no employees, and have not elected owner coverage for themselves.

The purpose of assigning this classification is to allow the independent contractor the opportunity to be checked for "account in good standing" status for prime contractor liability.

Special note: Any contractor who hires employees or elects owner coverage is required to report in the applicable construction classification.

AMENDATORY SECTION (Amending WSR 07-01-014, filed 12/8/06, effective 12/8/06)

WAC 296-17A-1007 Classification 1007.

1007-08 Geophysical exploration, N.O.C.

Applies to contractors engaged in geophysical exploration, with no core drilling, and without seismic detection, who are not covered by another classification (N.O.C.). The more common methods of geophysical exploration are gravitational, electric and magnetic. In the gravitational method, delicate pendulums and torsion balances capable of detecting differences in the gravitational pull of the earth at various places enable the geologist to tell where oil is likely to be found. There are two electrical methods, resistivity and inductive. In the resistivity method, measurements are taken on an ohmmeter, which indicate the resistivity of the subsurface. The inductive method is somewhat comparable, but instead of determining the resistivity of the subsurface formations, the conductivity is measured enabling the geologist to determine the character of the subsurface being studied. The magnetic method is accomplished by means of a highly developed form of magnetic dipping needle with a telescope magnifier. The magnetic attraction exerted by magnetic rocks and formations causes the needle to deflect from its horizontal plane, thereby enabling a geologist to develop contour maps with lines of equal magnetic attraction. This classification includes prospectors who may specialize in particular instrumentation such as electrical, gravity, magnetic or seismic. The prospector studies structure of subsurface rock formations to locate petroleum deposits; conducts research using geophysical instruments such as seismograph, gravimeter, torsion balance, and magnetometer, pendulum devices, and electrical resistivity apparatus to measure characteristics of the earth; computes variations in physical forces existing at different locations and interprets data to

reveal subsurface structures likely to contain petroleum deposits; and determines desirable locations for drilling operations. This classification includes prospecting for mineral ores and the testing of soil for percolation when performed by employees of an employer subject to this classification.

This classification excludes core drilling and seismic geophysical exploration which are to be reported separately in classification 0103, and geophysical crews employed by oil companies who are to be reported in the classification applicable to the business.

Special note: When assigning classifications 1007-08, 4901-16 - Geologists, and 0103-10 - Seismic geophysical exploration, care must be taken to look beyond the word "geologist" to determine the actual nature of the activities being performed.

1007-09 Testing and inspecting of pipelines or utility lines using radiographic, video, infrared thermography or X-ray analysis process by contractor at industrial plants or construction sites

Applies to establishments engaged in the testing or inspecting of pipelines, utility lines or conduits for others, provided the testing or inspecting is not performed in conjunction with the construction of the pipeline. This classification includes testing or inspecting involving radiographic, video, infrared thermography or X-ray analysis processes such as the X raying of containers, inspecting of utility lines, and the drawing of oil samples on-site when performed by employees of an employer subject to this classification. Classification 1007-09 is assigned primarily to field activities.

This classification excludes testing or inspecting done in conjunction with construction which is to be reported separately in the appropriate construction classification.

1007-15 Inspection and grading bureaus, N.O.C.; log scaling and grading bureaus; lumber inspection services; weigh scale attendants, N.O.C.; weather stations; rainmaking - no aircraft; air flow/heat balancing and testing

Applies to establishments operating as *inspection and grading bureaus*, not covered by another classification (N.O.C.), including, but not limited to, those involved in inspecting and grading commodities such as logs, lumber, shingles, shakes, poles, and railroad ties. The commodity is examined and stamped with a grademark which indicates the grade, species, producer's name or number and other pertinent data. A certificate of inspection may be issued in lieu of a grademark. The purpose of the inspection is to grade, tally, and stamp only those products which meet certain required specifications and to cull those products which do not meet the established standards. *Log scaling and grading bureaus* measure the logs, and by applying log rule formulas, determine the net yield, usually expressed in board feet. A scale ticket containing descriptive data is attached to the end of the log. This classification also applies to *weigh scale attendants* not covered by another classification (N.O.C.), when the service is available to the general public, otherwise the weigh scale

attendants are to be included in the basic classification of the business. This classification includes establishments engaged exclusively in such services as auto emission control testing, air flow balancing and testing, the balancing and testing of heating, ventilating and air conditioning systems, hydrostatic testing of such objects as boilers, tanks, pipes and fittings using compressed air or water pressure to detect leaks, the strength testing of building material such as, but not limited to, asphalt, concrete and steel; and the testing or inspecting of steel weldments. This classification also includes *weather stations* which observe and record weather conditions for use in forecasting, and which read weather instruments, including thermometers, barometers, and hygrometers to ascertain elements such as temperature, barometric pressure, humidity, wind velocity, and precipitation. Weather data is transmitted and received also from other stations. A fully automated (computerized) weather station can be reported under classification 4904. This classification also covers rainmaking without the use of aircraft.

~~((**Special note:** Classification 1007, classification 5001, and classification 5004, shall not be assigned to the same business unless the operations described by these classifications are conducted as separate and distinct businesses and the conditions set forth in the general reporting rules covering the operation of a secondary business have been met.))~~

1007-16 Foresters (to be assigned only by reforestation underwriter)

Applies to foresters engaged in forest management. Foresters may plan and direct forestation or reforestation projects, map forest areas, estimate standing timber and future growth, or manage timber sales. Foresters also may plan cutting programs to assure continuous production of timber, and determine methods of cutting and removing timber with a minimum of waste and environmental damage. They may plan and design forest fire suppression and fire-prevention programs, plan and design construction of fire towers, trails, roads and fire breaks and may also plan and design projects for control of floods, soil erosion, tree diseases, and insect pests in forests. Foresters may specialize in one aspect of forest management.

This classification excludes manual labor or direct supervision of manual labor.

1007-18 Foresters and timber cruisers - scientific tree, forestry, and watershed studies (to be assigned only by reforestation underwriter)

Applies to establishments engaged in scientific tree studies for others. Scientific tree studies are research oriented; random sample plots are measured and data such as the size of trees, species, disease and insect or animal damage, and seedling mortality, are recorded. Plots are maintained where each tree is tagged, its genealogy recorded, and growth statistics entered. A scion (a detached living shoot or twig) may be grafted onto a root stock and detailed records maintained of its genealogy and growth.

Other data, such as fertilizers used, also may be maintained. These test plots are sometimes referred to as progeny plots or progeny studies. This classification includes scientific studies of watersheds or watershed restoration which involves the evaluation of slopes, road systems, streams and the entire ecosystem (an ecological community with its physical environment, regarded as a unit). This classification also includes precommercial thinning layouts or pruning inspections to determine if an area is ready for thinning or pruning.

This classification excludes manual labor or direct supervision of manual labor.

~~((**Special note:** Classification 1007, classification 5001, and classification 5004 shall not be assigned to the same business unless the operations described by these classifications are conducted as separate and distinct businesses and the conditions set forth in the general reporting rules covering the operation of a secondary business have been met.))~~

1007-19 Timber cruisers (to be assigned only by reforestation underwriter)

Applies to timber cruisers engaged in cruising timber land to estimate the volume and quality of a timber stand through an on-site visual inspection. A timber cruiser collects data concerning forest conditions for appraisal, sales, administration, logging, land use, and forest management planning. A forest area is traversed on foot in an established pattern and sampling techniques applied. The height and diameter of each tree in a test site is recorded as are defects such as rot and bends, to estimate the useable wood in each tree. From the data collected a summary report is prepared giving the timber types, sizes, condition and outstanding features of an area, such as existing roads, streams, and communication facilities. Trees may be marked with spray paint to denote trail, boundary, or for cutting.

This classification excludes manual labor or direct supervision of manual labor.

1007-20 Foresters and timber cruisers - tree auditing (to be assigned only by reforestation underwriter)

Applies to establishments engaged in tree auditing for others. This service is generally associated with new plantations and is the process of evaluating the quality and the rate of planting of new trees, as well as surveying newly planted sites on a periodic schedule to determine the survival rate.

This classification excludes tree auditing services when planting is in process, which is to be reported separately in classification 5004 (~~(, and manual labor or direct supervision of manual labor)~~).

~~((**Special note:** Classification 1007, classification 5001, and classification 5004 shall not be assigned to the same business unless the operations described by these classifications are conducted as separate and distinct businesses and the conditions set forth in the general reporting rules covering the operation of a secondary business have been met.))~~ This classification excludes

manual labor or direct supervision of manual labor.

1007-21 Environmental and ecological surveyor services, N.O.C.

Applies to establishments engaged in providing environmental and ecological surveying services not covered by another classification (N.O.C.) for others. Environmental or ecological surveying firms typically serve as consultants to industrial or commercial enterprises, governmental agencies or private citizens. Environmental engineer is a term applied to engineering personnel who apply knowledge of chemical, civil, mechanical, or other engineering disciplines to preserve the quality of life by correcting and improving various areas of environmental concern, such as air, soil, or water pollution. Services include identifying and projecting potential environmental impact resulting from proposed projects, assessing the source, severity and extent of environmental damage resulting from human or natural causes, and recommending solutions to protect or regain the natural balance between organisms and their environment. Activities of environmental surveying/consulting establishments include, but are not limited to, locating archaeological sites for preservation, researching and collecting field data on birds and insects, preparing impact statement for landowners and developers, stream and fish monitoring, botanical surveys, wetland surveys, soil and ground water testing for contamination, air monitoring including industrial hygiene services, monitoring and testing at hazardous waste sites, providing advice on pollution control at its source, and developing a plan for cleaning up already recognized problems such as waste disposal sites, radon or asbestos contamination. Other services provided may include helping clients develop a system for complying with various governmental regulations. This classification includes employees of the environmental surveying service who conduct field work as well as those who are assigned to act as project managers or project superintendents to oversee the work of remediation contractors.

This classification excludes all types of remediation work which is to be reported separately in the classification applicable to the type of remediation work being performed, and surveyors employed by construction companies or other types of businesses who are to be reported separately in the applicable classifications.

Special note: When assigning classifications 1007 or 4901, care must be taken to look beyond the words "consulting" or "engineering" to determine the actual nature of the activities being performed.

AMENDATORY SECTION (Amending WSR 07-24-045, filed 12/1/07, effective 1/1/09)

WAC 296-17A-1501 Classification 1501.

1501-00 Counties and taxing districts, N.O.C. - all other employees

Applies to employees of counties and taxing districts, not covered by another classification (N.O.C.), who perform manual labor, or who supervise a work crew performing manual labor such as custodial or maintenance, and machinery or equipment operators including transit bus drivers. This classification includes administrative personnel such as engineers, safety inspectors, and biologists who have field exposure, and internal inventory and supply clerks. For purposes of this classification, field exposure is defined as any exposure other than the normal travel to or from a work assignment.

This classification excludes electric light and power public utility districts which are to be reported separately in classification 1301; privately owned and operated bus or transit systems which are to be reported separately in classification 1407; water distribution or purification system public utility districts which are to be reported separately in classification 1507; irrigation system public utility districts which are to be reported separately in classification 1507; port districts which are to be reported separately in classification 4201; school districts, library districts or museum districts which are to be reported separately in classifications 6103 or 6104; hospital districts which are to be reported separately in classification 6105; firefighters who are to be reported separately in classification 6904; law enforcement officers who are to be reported separately in classification 6905 and 6906, as appropriate; clerical office and administrative employees who are to be reported separately in classification 5306, and volunteers who are to be reported separately in classifications 6901 or 6906, as appropriate.

1501-01 Housing authorities, N.O.C. - all other employees

Applies to employees of housing authorities, not covered by another classification, who perform manual labor, or who supervise a work crew performing manual labor such as custodial or maintenance, and machinery or equipment operators. This classification includes all functional operations of a housing authority such as inspection, maintenance and repairs, including minor structural repairs, janitorial service, and building and grounds maintenance. Also included in this classification are meter readers, security personnel, other than those with law enforcement powers, administrative personnel such as engineers and safety inspectors who have field exposure, and internal inventory and supply clerks. For purposes of this classification, housing authorities are defined as nonprofit, public and political entities which serve the needs of a specific city, county or Indian tribe. The nature and objectives of some of the projects undertaken by housing authorities include providing decent, safe and sanitary living accommodations for low income persons, or providing group homes or halfway houses to serve developmentally or otherwise disabled persons or juveniles released from correctional facilities. A housing authority has the power to prepare, carry out, lease and operate housing facilities; to provide for the construction, reconstruction, improvement, alteration or repair of

any housing project; to sell or rent dwellings forming part of the project to or for persons of low income; to acquire, lease, rent or sell or otherwise dispose of any commercial space located in buildings or structures containing a housing project; to arrange or contract for the furnishing of the units; and to investigate into the means and methods of improving such conditions where there is a shortage of suitable, safe and sanitary dwelling accommodations for persons of low income.

This classification excludes new construction or major alteration activities which are to be reported separately in the appropriate construction classifications; clerical office and administrative employees who are to be reported separately in classification 5306; security personnel with law enforcement powers who are to be reported separately in classification 6905; and volunteers who are to be reported separately in classifications 6901 or 6906, as appropriate.

1501-08 Native American tribal councils - all other employees

Applies to employees of Native American tribal councils who perform manual labor, or who supervise a work crew performing manual labor such as custodial or maintenance, and machinery or equipment operators. This classification includes administrative personnel such as engineers, safety inspectors, and biologists who have field exposure, and internal inventory and supply clerks of the tribal council. For purposes of this classification, field exposure is defined as any exposure other than the normal travel to and from a work assignment.

This classification excludes electric light and power public utility districts which are to be reported separately in classification 1301; water distribution or purification system public utility districts which are to be reported separately in classification 1507; irrigation system public utility districts which are to be reported separately in classification 1507; school districts, library districts or museum districts which are to be reported separately in classifications 6103 or 6104; hospital districts which are to be reported separately in classification 6105; firefighters who are to be reported separately in classification 6904; law enforcement officers who are to be reported separately in classifications 6905 and 6906; new construction or reconstruction activities which are to be reported separately in the appropriate construction classification; clerical office and administrative employees who are to be reported separately in classification 5306.

Special notes: Housing authorities operating under the name of, and for the benefit of, a particular tribe are not exempt from mandatory coverage. These housing authorities are federally funded and are not owned or controlled by a tribe.

Only those tribal operations which are also provided by county governments are subject to classification 1501. The following activities, such as but not limited to, visiting nurses and home health care, grounds keepers, building maintenance, park maintenance, road maintenance, and garbage and sewer works, are considered to be normal operations to be included in this

classification. All other tribal council operations which are not normally performed by a county government shall be assigned the appropriate classification for the activities being performed. The following operations, such as but not limited to, meals on wheels, bingo parlors, casinos, liquor stores, tobacco stores, grocery stores, food banks, gift shops, restaurants, motels/hotels, Head Start programs, fish/shellfish hatcheries, logging, and tree planting/reforestation are outside the scope of classification 1501 and are to be reported separately in the applicable classifications.

1501-09 Military base maintenance, N.O.C.

Applies to establishments, not covered by another classification (N.O.C.), engaged in providing all support operations and services on a military base on a contract basis. Such services include, but are not limited to, data processing, photography, mail delivery (on post and to other military facilities), hotel/motel services, mess halls, recreational facilities, grounds and building maintenance, vehicle maintenance, and may also include the maintenance of such facilities as water works, sewer treatment plants and roads.

This classification excludes new construction or construction repair projects which are to be reported separately in the applicable construction classification for the work being performed; contracts for specific activities on a military base such as, but not limited to, building maintenance, club or mess hall operations, or vehicle maintenance, which are to be reported separately in the applicable classification for the work being performed; firefighters who are to be reported separately in classification 6904; law enforcement officers who are to be reported separately in classification 6905; and clerical office and administrative employees who are to be reported separately in classification 5306.

Special note: Classification 1501-09 is to be assigned to an establishment only when **all** support services on a military base are being provided by the contractor. Care should be taken when assigning classification 1501-09 to firms whose military support services include loading, unloading, repair or construction of vessels, or the repair of buildings or structures used for such activities as that firm may be subject to federal maritime law.

1501-20 Community action organizations - all other employees N.O.C.

Applies to organizations performing an array of services to support the local community and citizens in need. The services provided by community action organizations may include, but are not limited to: Child care; after school care; alternative schools; in home chore services; employment or independence training, counseling and assistance; drug and alcohol recovery programs; decent, safe and sanitary living accommodations for low-income or needy citizens; transitional or emergency housing; weatherization; food and clothing banks; meals; or medical services.

This classification applies to employees of community action organizations N.O.C. (not otherwise classified) who perform manual-

type labor, or who supervise a work crew performing manual labor. Work in this classification includes, but is not limited to: Cooks, food banks, drivers, (~~chore workers/home service workers,~~) janitorial or maintenance and repair work, or weatherization services.

Excluded from this risk classification is new construction or major alteration activities which are to be reported separately in the appropriate construction classifications; office employees who work exclusively in an administrative office environment who are to be reported in classification 4904-20; professional or administrative employees who may also have duties outside of the office who are to be reported in classification 5308-20; chore workers/home service workers who are to be reported in classification 6511-20; housing authorities which are to be reported in 1501-01 and 5306-26; welfare special works programs which are to be reported in 6505; work activity centers which are to be reported in 7309; and volunteers who are to be reported in classification 6901.

See classifications 5308-20 and 4904-20 for other community action operations.

AMENDATORY SECTION (Amending WSR 07-01-014, filed 12/8/06, effective 12/8/06)

WAC 296-17A-3403 Classification 3403.

3403-00 Aircraft: Manufacturing

Applies to establishments engaged in the manufacture of aircraft. For the purposes of this classification "aircraft manufacturing" means the original manufacture of such aircraft as distinguished from rebuilding, modifying, or converting existing aircraft and applies *only* to the production of units that, when completed, are capable of in-air flight as distinguished from aircraft kits to be assembled by the purchaser that are not capable of air flight when sold. This classification includes aircraft operations incidental to the manufacture, such as test flights.

This classification excludes establishments engaged in the original manufacture of aircraft parts which are to be reported separately in classification 3405 or as otherwise provided for in WAC (~~(296-17-58201)~~) 296-17A-3405; the manufacture of aircraft kits which is to be reported separately in the classification applicable to the work being performed; modification, repair or conversions made to an existing aircraft which are to be reported separately in classification 6804; and the *assembly of aircraft kits into an airplane* which is to be reported separately in classification 6804.

WAC 296-17A-4904 Classification 4904.

4904-00 Clerical office, N.O.C.

Applies to those employees whose job duties and work environment meet all the conditions of the general reporting rules covering clerical office standard exception employees who are not covered by another classification (N.O.C.) assigned to their employer's account. Duties of clerical office personnel contemplated by this classification are limited to answering telephones, handling correspondence, creating or maintaining financial, employment, personnel or payroll records, composing informational material on a computer, creating or maintaining computer software, and technical drafting.

Special note: When considering this classification, care must be taken to look beyond titles of employees. Employees with occupational titles such as, but not limited to, cashiers, clerks, or ticket sellers, may or may not qualify for this classification. This is a restrictive classification; the qualifying factor is that all the conditions of the general reporting rules covering standard exception employees have been met.

4904-13 Clerical office: Insurance companies, agents or brokers

Applies to clerical office employees of insurance companies, including insurance agents or brokers who perform duties exclusively of clerical nature and without an interchange of labor between clerical and nonclerical duties. This classification is limited to duties defined as responding to telephone inquiries, assisting walk-in customers, handling correspondence such as the preparation of insurance policies and billing, receiving and processing payments and invoices, maintaining personnel and payroll records, and performing the necessary computer work.

Special note: Individuals performing duties as an agent, broker, or solicitor (and hold a license as issued by the office of the insurance commissioner) are exempt from coverage as specified in RCW 51.12.020(11) and 48.17.010, 48.17.020, and 48.17.030. To elect voluntary coverage these individuals must submit a completed optional coverage form to the department. In addition, care should be exercised to determine if the insurance company employs individuals such as receptionists, bookkeepers, or claims clerks who perform clerical duties which may include the incidental taking of insurance applications and receiving premiums in the office of an agent or broker. Such individuals may or may not hold a license as issued by the office of the insurance commissioner, and are not deemed to be a solicitor, agent or broker when compensation is not related to the volume of such applications, insurance, or premiums. In these instances, the clerical individuals fall under mandatory workers' compensation coverage, and do not meet the requirements to be exempt from coverage as specified in RCW 51.12.020(11).

4904-17 Clerical office: Employee leasing companies

Applies to clerical office employees of employee leasing companies. This classification requires that clerical office employees perform duties exclusively of a clerical nature, without an interchange of labor between clerical and nonclerical duties, and that these duties be performed in an area or areas separated from the operative hazards of the business. This classification is limited to duties defined as responding to telephone inquiries, receptionist and administrative duties, handling correspondence such as preparing and processing billing statements and forms, maintaining personnel and payroll records, and performing the necessary computer entry work.

Special note: This is a standard exception classification and is not to be assigned unless all the conditions of the general reporting rule covering clerical office standard exception employees have been met.

4904-20 Community action organizations - Clerical office employees

Applies to organizations performing an array of services to support the local community and citizens in need. The services provided by community action organizations include: Child care; after school care; alternative schools; in-home chore services; employment or independence training, counseling and assistance; drug and alcohol recovery programs; decent, safe and sanitary living accommodations for low-income or needy citizens; transitional or emergency housing; weatherization; food and clothing banks; meals; medical services.

This classification includes employees whose work duties include administrative office work such as answering phones, completing correspondence and forms, reception work, computer work, maintaining financial, personnel and payroll records, conducting meetings, providing counseling services within the offices of the organization. All work is performed exclusively in an office environment where no other types of work are conducted, and the office is separated from any other work activity by walls, partitions, or other physical barriers. Work performed outside of the office is limited to banking or post office type duties performed by workers who qualify for this classification. A worker's reported hours may not be divided between this classification and any other risk classifications.

Excluded from this risk classification are all other employees including: Medical, dental or nursing professionals, and administrative employees whose duties are not performed exclusively in an administrative office, who are to be reported in risk classification 5308-20; chore workers/home service workers who are to be reported in 6511-20; employees who perform labor such as (~~cooking, cleaning and chore services,~~) food bank operations, driving, weatherization, janitorial, property management, maintenance and repair work which are to be reported in risk classification 1501-20; housing authorities which are to be reported in 1501-01 and 5306-26; welfare special works programs which are to be reported in 6505; work activity centers which are to be reported in 7309; and volunteers who are to be reported separately in classification 6901.

See classifications 1501-20 and 5308-20 for other community action operations.

AMENDATORY SECTION (Amending WSR 07-24-045, filed 12/1/07, effective 1/1/09)

WAC 296-17A-5308 Classification 5308.

5308-20 Community action organizations - Professional services and administrative employees

Applies to organizations performing an array of services to support the local community and citizens in need. The services provided by community action organizations include: Child care; after school care; alternative schools; in-home chore services; employment or independence training, counseling and assistance; drug and alcohol recovery programs; decent, safe and sanitary living accommodations for low-income or needy citizens; transitional or emergency housing; weatherization; food and clothing banks; meals; medical services.

This classification applies to professional services and administrative employees. Work duties in this classification are not performed exclusively in an administrative office environment. Travel may be necessary to perform work at an alternate work site for appointments with clients, patients, meetings, presentations, agency promotions, or other required out-of-office administrative type work. Work performed in this classification may include, but is not limited to, counselors or educators for various programs, medical, dental and nursing services; child care professionals or teachers, program coordinators and directors. Also included are estimators and project managers who do not supervise a work crew or perform any type of labor.

Excluded from this risk classification is any manual labor or supervision of a work crew that performs manual labor, construction or maintenance work, work in a food bank, delivery, (~~cooking, cleaning, chore services,~~) or other similar work which is to be reported in risk classification 1501-20; chore workers/home service workers who are to be reported in 6511-20; office employees who work exclusively in an administrative office environment who are to be reported in risk classification 4904-20; housing authorities which are to be reported in 1501-01 and 5306-26; welfare special works programs which are to be reported in 6505; work activity centers which are to be reported in 7309; and volunteers who are to be reported in risk classification 6901.

See classifications 1501-20 and 4904-20 for other community action operations.

WAC 296-17A-6303 Classification 6303.

6303-00 Outside sales personnel, N.O.C.; messengers

Applies to those employees whose job duties and work environment meet *all* the conditions of the general reporting rules covering outside sales personnel, and who are not covered by another classification (N.O.C.) assigned to the employer's account. Duties of outside sales personnel contemplated by this classification are limited to soliciting new customers by telephone or in person, showing, selling, and explaining products or services, servicing existing accounts, completing correspondence, placing orders, performing public relations duties, and estimating. Duties of messengers are limited to delivering interoffice mail, making deposits, and similar duties that are exclusively for the administration of the employer's business.

This classification excludes the delivery of products or merchandise or the stocking of shelves which is to be reported separately as applicable; the demonstration or delivery of machinery or equipment which are to be reported separately as applicable, establishments engaged as collection agencies or public relations agencies which are to be reported separately in classification 5301; sales personnel engaged in home or door-to-door sales which are to be reported in classification 6309; establishments engaged in providing inspection and valuations exclusively for insurance companies which are to be reported separately in classification 4903; establishments engaged in process and legal messenger services which are to be reported separately in classification 6601.

Special note: When considering this classification care must be taken to look beyond titles of employees. Employees with occupational titles such as, but not limited to, collectors, counselors, consultants, or appraisers may or may not qualify for this classification. This is a restrictive classification; the qualifying factor is that all the conditions of the general reporting rules covering standard exception employees have been met.

6303-03 Insurance sales personnel and claims adjusters

Applies to insurance sales personnel and claims adjusters with outside duties. Duties of employees subject to this classification are limited to selling insurance policies at their place of business or at the client's home, or going to the scene of an accident or catastrophe to assess damage. Work may be performed within an office or away from the employer's premises.

Special note: Individuals performing duties as an agent, broker, or solicitor (and hold a license as issued by the office of the insurance commissioner) are exempt from coverage as specified in RCW 51.12.020(11) and 48.17.010, 48.17.020, and 48.17.030. To elect voluntary coverage these individuals must submit a completed optional coverage form to the department.

6303-21 Home health care services: Social workers and dietitians

Applies to social workers and dietitians employed by home health care service establishments who provide care for handicapped individuals. Duties of these employees include teaching physically or developmentally disabled individuals in their own home to manage daily living skills such as caring for themselves, dressing, cooking, shopping, and going to the doctor. This classification also includes dietitians, sometimes called nutritionists, who usually are referred to patients by their physicians. The dietitian assesses the patient's current nutritional status, including current food intake, medical background, family history, currently prescribed medications, and social and psychological needs, then develops, a food plan to meet the patient's needs. Employees subject to this classification do no cooking.

This classification excludes nursing and home health care services which are to be reported separately in classification 6110; therapy services which are to be reported separately in classification 6109; domestic servants who are to be reported separately in classification 6510; and chore workers who are to be reported separately in classification 6511.

Special note: This is a restrictive classification; the qualifying factor is that all the conditions of the general reporting rules covering standard exception employees have been met. *This classification is not to be assigned to any account that does not also have classification 6110 and/or 6511.*

AMENDATORY SECTION (Amending WSR 07-01-014, filed 12/8/06, effective 12/8/06)

WAC 296-17A-7205 Classification 7205.

Life and rescue - Emergency workers

Applies to employees of nongovernmental employers provided in response to a request for assistance by a state or local official in the "life and rescue phase" of a declared emergency. This classification is only applicable for reporting the exposures (worker hours and claims) of nongovernmental employees occurring during this phase of the declared emergency. The phrase "life and rescue phase" is defined in RCW ((~~51.16.130(3)~~) 51.16.220) as being the first seventy-two hours after a natural or man-made disaster has occurred. To qualify for this special classification, a state or local official such as, but not limited to, the governor; a county executive; a mayor; a fire marshal; a sheriff or police chief must declare an emergency and must request help from private sector employers to assist in locating and rescuing disaster survivors.
