

Design, Construction and Equipment

WAC 296-869-300

Section Contents

IMPORTANT:

This section applies to manually propelled, self-propelled, and boom-supported elevating work platforms.

YOUR RESPONSIBILITY:

To make sure elevating work platforms meet these design, construction, and equipment requirements

Manually propelled elevating work platforms WAC 296-869-30005	300-2
Self-propelled elevating work platforms WAC 296-869-30010	300-3
Boom-supported elevating work platforms WAC 296-869-30015	300-4
Modifications WAC 296-869-30020	300-5

Design, Construction and Equipment

Rule

WAC 296-869-30005

Manually propelled elevating work platforms

IMPORTANT:

This section applies to manually propelled, integral chassis, elevating work platforms with a platform that can't be positioned completely beyond the base.

You must

- Make sure manually propelled elevating work platforms meet the design and construction requirements of American National Standards Institute (ANSI) A92.3-1990, American National Standard for Manually Propelled Elevating Aerial Platforms.
- Make sure the manufacturer provides instructions and markings that meet the requirements of ANSI A92.3-1990, American National Standard for Manually Propelled Elevating Aerial Platforms, on each elevating work platform.
- Make sure manuals that meet the requirements of ANSI A92.3-1990, American National Standard for Manually Propelled Elevating Aerial Platforms, are:

Provided for each elevating work platform

and

Kept in the weather-resistant storage compartment provided by the manufacturer

Note:

Required manuals include the manufacturer's operating and maintenance manuals and a manual that defines the responsibilities of dealers, owners, lessors, lessees, users, and operators.

Self-propelled elevating work platforms

IMPORTANT:

This section applies to self-propelled, integral chassis, elevating work platforms with a platform that can't be positioned completely beyond the base.

You must

- Make sure self-propelled elevating work platforms manufactured on or after July 1, 2006, meet the design and construction requirements of ANSI A92.6-1999, American National Standard for Self-Propelled Elevating Work Platforms.
 - Make sure self-propelled elevating work platforms manufactured before July 1, 2006 meet the design and construction requirements of ANSI A92.6-1990, American National Standard for Self-Propelled Elevating Work Platforms.
 - Make sure the manufacturer provides instructions and markings that meet the requirements of ANSI A92.6-1990 or A92.6-1999, American National Standard for Self-Propelled Elevating Work Platforms, as appropriate, on each elevating work platform.
 - Make sure manuals that meet the requirements of ANSI A92.6-1990 or A92.6-1999, American National Standard for Self-Propelled Elevating Work Platforms, as appropriate, are:
 - Provided for each elevating work platform
- and**
- Kept in the weather-resistant storage compartment provided by the manufacturer

Note:

Required manuals include the manufacturer's operating and maintenance manuals and a manual that defines the responsibilities of dealers, owners, lessors, lessees, users, and operators.

Boom-supported elevating work platforms

IMPORTANT:

This section applies to self-propelled, integral chassis, elevating work platforms with a boom-supported platform that can be positioned completely beyond the base.

You must

- Make sure boom-supported elevating work platforms meet the design and construction requirements of American National Standards Institute (ANSI) A92.5-1992, American National Standard for Boom-Supported Elevating Work Platforms.
- Make sure the manufacturer provides instructions and markings that meet the requirements of ANSI A92.5-1992, American National Standard for Boom-Supported Elevating Work Platforms, on each elevating work platform.
- Make sure manuals that meet the requirements of ANSI A92.5-1992, American National Standard for Boom-Supported Elevating Work Platforms, are:

- Provided for each elevating work platform

and

- Kept in the weather-resistant storage location provided by the manufacturer

Note:

Required manuals include the manufacturer's operating and maintenance manuals and a manual that defines the responsibilities of dealers, owners, lessors, lessees, users, and operators.

WAC 296-869-30020

Modifications

You must

- Prohibit altering or disabling interlocks or other safety devices.
- Have written permission from the manufacturer before making any modification to an elevating work platform.

Note:

If the original manufacturer is no longer in business, an equivalent entity such as a nationally recognized testing laboratory may approve modification.

Notes
