Important note:

The consultations and inspections above involved a COVID-19 safety complaint or resulted in a COVID-19 safety violation. However, **all** consultations and inspections by L&I's Division of Occupational Safety and Health (DOSH) review compliance with COVID-19-related health and safety regulations. Since March 2020, DOSH has completed **3,757** on-site inspections and **1,423** consultations.
