CPT® codes and descriptions copyright 2014 by American Medical Association
State Law (RCW 7.68.170) requires Crime Victims Compensation Program to pay the costs of sexual assault examinations when they are performed to gather evidence for possible prosecution. Crime Victims Compensation Program is the primary payer for initial sexual assault examinations. The claimant is not required to file a police report to receive a sexual assault exam. The claimant is not required to file an application for benefits and may not be billed for these costs.

If the examination includes treatment (i.e. setting broken bone, repair a laceration) or if the claimant will require follow-up treatment (i.e. remove cast, remove stitches, mental health counseling), a timely Application for Benefits must be filed with the Crime Victims Compensation Program in order for the treatment to be considered for payment.

At the time of assault, if the victim was confined in any county or city jail, federal jail or prison or in any other federal institution, or any state correctional institution maintained and operated by the Department of Social and Health Services or the Department of Corrections or was confined or living in any other institution maintained and operated by the Department of Social and Health Services or the Department of Corrections Crime Victims Compensation Program is not responsible for payment. Submit your bills to the institution.

Provider Account Numbers

Health care providers who treat both injured workers and crime victims can bill the Crime Victims Compensation Program using their Labor and Industries provider account number.

If you do not have a provider number go to the following link to apply.
www.Lni.wa.gov/ClaimsIns/Providers/Becoming/default.asp

Reporting Requirements for Sexual Assault Exam

Providers who perform the sexual assault examination must submit a report. The report can be the one-page Crime Victims Compensation Program Sexual Assault Exam Report or a narrative report. The report must contain the location of assault (e.g. city, county, state). The claimant is not required to file a police report to receive a sexual assault exam.

The local procedure codes 0130C through 0133C are intended to be used for the initial sexual assault examination only. However, you may bill using customary CPT® and/or HCPC codes.

Mental Health Therapy – Child Victim

- A maximum of three counseling sessions may be authorized for the purpose of desensitizing a child victim to the physical sexual assault examination. This is used in the event the child victim is unable to complete the physical sexual assault examination, after the exam has been initiated. These counseling sessions are billed with and paid for as part of the sexual assault examination.

Continuation of Initial Exam

If a follow-up visit is a continuation of the initial sexual assault examination, a report must be submitted to support the follow-up visit was for the purpose of gathering evidence.
Services that aren’t covered

- Supplies associated with the treatment of physical injuries sustained during a sexual assault are not payable with the initial sexual assault exam.

- Follow-up visits that are not a continuation of initial exam, treatment of injuries sustained during a sexual assault or therapies for injuries sustained during the sexual assault are not payable under the initial sexual assault claim.

Payment for treatment of injuries sustained during the sexual assault will only be considered when a timely Application for Benefits is filed with the Crime Victims Compensation Program. The claimant must file a police report and an Application for Benefits. If the claimant does not file an Application for Benefits, all follow-up treatment and associated costs will be the claimant’s responsibility.

Diagnosis

The diagnosis on the bill must indicate the visit was for a sexual assault.

The ICD-9 diagnosis codes for sexual assault exams performed prior to 10/01/15 are: V71.5, 995.83 and 995.53.

Site of Service Payment Differential

The site of service differential is based on the Federal Centers for Medicare and Medicaid Services’ payment policy and establishes distinct maximum fees for services performed in facility and nonfacility settings.

When services are performed in a facility setting, the Department makes two payments, one to the professional provider and another to the facility. The payment to the facility includes:

- Resource costs such as labor
- Medical supplies
- Medical equipment.

To avoid duplicate payment of resource costs, these costs are excluded from the professional services fee schedule rates for facility settings.

Professional services will be paid at the fee schedule rate for facility settings when the Department also makes a payment to a facility.

When services are provided in non-facility settings, the professional provider typically bears the costs of labor, medical supplies and medical equipment. These costs are included in the rate for non-facility settings.

Professional services will be paid at the rate for non-facility settings when the Department does not make a separate payment to a facility.
Provider Protests

Protest
A protest is a timely request to the Crime Victims Compensation Program to reconsider any order, decision or remittance advice. A protest is considered less formal than an appeal and the reconsideration is done at the program level.

How do I protest?
Send a letter to the Crime Victims Compensation Program, PO Box 44520 Olympia, WA 98504-4520, with the following information:

- The decision you disagree with and why.
- The claim number, your name, the victim’s name, remittance advice number and date.
- The more clearly you explain why you think our decision is wrong, and the more documentation you provide to substantiate your position, the better.
- All protests must be in writing and received by Crime Victims Compensation Program within the appropriate timeframe.

What is the timeframe for filing a protest?
- 90 days for initial payments/increased adjustments.
- 20 days for adjustments resulting in a decreased payment.
- The 90/20 days start from the date you receive the order, decision or remittance advice.

What happens after I protest?
We will:

- Determine if the protest is timely, within the 90/20 days.
- Review the protest.
- Gather any other applicable information.
- Issue a further remittance advice or order, which will either change or affirm the decision.

What if my protest is not timely?
We will issue an order informing you the decision is final and no adjustments can be made. (You can appeal this order to the Board of Industrial Insurance Appeals.)

What if I still don't like your decision?
You can file a timely, written, appeal with the Board of Industrial Insurance Appeals. PO Box 42401, Olympia, WA 98504-2401.
