January 2023

Dear Survey Participant,

The Department of Labor & Industries (L&I) is conducting a voluntary wage and hour survey to set prevailing wage rates for three trades involved in **residential construction** public projects. The three are:

- Plumbers and Pipefitters
- Refrigeration and Air Conditioning Mechanics
- Sprinkler Fitters (Fire Protection)

You are receiving this because our records show you have been involved with one of these trades during the survey period: Oct. 1, 2021-Sept. 30, 2022.

We are asking for your help by completing the survey. Your participation is important in establishing accurate prevailing wages in your area. If your company does not perform work on residential projects, then please disregard this request.

Filling out the survey

We are asking for hourly wages, hourly benefits, and hours worked on public and private **residential construction** projects. Separate the information by county, and whether the project took place in the "largest city" in each county. We need this information filed separately in two categories:

1. Affordable housing, weatherization, homeless or domestic violence shelters
2. All other residential construction projects

Submit an electronic survey online or print a survey and mail it to us. Visit lni.wa.gov/PWSurvey for instructions. The web page includes helpful information to make it easy to fill out the survey.

April 28, 2023 is the deadline for us to receive the surveys. *Please note the information provided may be made available for public review if requested.*

Thank you in advance for taking the time for this survey. If you have questions, please contact Sean Anderson at Sean.Anderson@lni.wa.gov, or by calling 360-902-5337.

Sincerely,

A handwritten signature in blue ink that reads "Jody Robbins".
