

## Report of the Reciprocity Sub-Committee

January 12, 2023

The Subcommittee did not meet this quarter as there was no business before it. So I have no report to make.

I did however want to mention that we convened a meeting of the signatory states of tri-state reciprocity agreement – Oregon, Montana and Washington – pursuant to Section XIV of the agreement that provides for the parties to “meet annually ... to review the overall success of (the) Agreement and to recommend changes”.

The participants concluded the agreement was working as designed, but agreed to some minor language changes further clarifying its intent. The clarifications related to the separate responsibilities of the Registering State, the Host State where the work is being performed, and apprenticeship programs themselves.

We will be bringing the agreement before the full council at a later date for ratification.

Respectfully submitted, Dave D’Hondt, Chair Reciprocity Subcommittee
