Definitions

- ▶ **By report (BR):** A code listed in the fee schedule as “BR” doesn’t have an established fee because the service is too unusual, variable, or new. When billing for the code, the provider must provide a report that defines or describes the services or procedures. The insurer will determine an appropriate fee based on the report.

Link: For the legal definition of **By report (BR)**, see [WAC 296-20-01002](#).

- ▶ **Nurse case management (NCM):** A collaborative process used to meet worker’s healthcare and rehabilitation needs. The nurse case manager:
 - Works with the attending provider, worker, allied health personnel, and insurers’ staff to assist in locating a provider (primarily for out-of-state claims) and/or with coordination of the prescribed treatment plan, *and*
 - Organizes and facilitates timely receipt of medical and healthcare resources and identifies potential barriers to medical and/or functional recovery of the worker, *and*
 - Communicates this information to the attending doctor, claim manager, *and* **ONC** to develop a plan for resolving or addressing the barriers.
