Purpose: The purpose of this rulemaking order is to delay the effective date of the electrical rules adopted under Washington State Register (WSR) 20-11-053 on May 19, 2020. Due to the evolving public health emergency caused by the coronavirus (COVID-19) outbreak, L&I is delaying the implementation of the new electrical rules, until October 29, 2020.

L&I's Electrical Program reviewed the existing rules and new safety codes from the 2020 edition of the National Fire Protection Association (NFPA) 70, the National Electrical Code (NEC) to update rules for consistency with the national safety standards and to consider other rule changes.

Washington's electrical stakeholders were invited to participate in the review of the existing rules, submit proposals for changes to the rules, and provide recommendations to the department on possible rule changes. The state's Electrical Board reviewed proposals and provided advice to the department on adoption of the rules.

This rulemaking will adopt changes to the new safety codes, update and clarify existing rules, make housekeeping and other rule changes identified during the review process and recommended by stakeholders, a Technical Advisory Committee, and the state's Electrical Board to improve public safety.
