#### **Logging Stay at Work Success Story**

An LSI logging company had a choker setter with minor injuries that was unable to return to his job of injury for an extended period of time. The injured worker was released for light duty by his physician and started with a light-duty office helper position and gradually moved to a shop helper position. The employer used the Washington State Stay at Work program and filed for 50 percent of the injured worker's salary to be reimbursed. The employer received almost \$3,500; in addition, there was no time-loss on the claim keeping his premium rates low.

#### Introduction

#### Is Return-to-Work even possible in Logging?

Yes! There are several options for return-to-work in the logging industry. Below is a recent success stories of a logging company that used light duty and the Washington Stay at Work Program:

Chilton Logging Inc., an LSI Logging Company, recently had a timber faller with a leg laceration from a chainsaw kicking back during the falling of a tree. The injured worker was promptly treated in an ER, and the physician ordered one week of time off from work and a subsequent light duty assignment for two weeks. The employer kept the injured worker on salary during the prescribed week off and provided a two week light duty position as a shop helper. The employer used the Washington State Stay at Work program and filed for 50 percent of the injured worker's salary to be reimbursed. The employer received over \$1,600; in addition, there was no time-loss on the claim keeping his premium rates low. After being released by his doctor, the injured worker has returned to his job falling trees.

Bringing an injured worker back on light duty is a win-win. Utilizing the Stay at Work Program helps reduce the employers' cost per claim and makes it more affordable for the employer to keep their trained workers on the job. It also promotes better health outcomes for injured workers by improving the chance of a good recovery, reducing the likelihood of a long-term disability, and helps the worker preserve their foothold in the job market.

This packet provides helpful tools and resources as well as examples of return-to-work in logging and options that might work for your logging company.

#### What is the Logger Safety Initiative (LSI)?

The Logger Safety Initiative (LSI) is a collaborative effort that provides voluntary improvements to worker protection and safety. The purpose of LSI is to promote occupational safety, reduce fatalities, decrease the frequency and severity of workplace injuries, increase the proper reporting of worker hours for workers' compensation insurance premiums, and explore options for reducing costs in the logging industry.

More information regarding the Logger Safety Initiative can be found at www.loggersafety.org.

One way of reducing costs in the logging industry is through return-to-work options. The longer an injured employee is absent from the workplace, the higher the costs will be to you, L&I, and the overall industry.

#### What is Return-to-Work?

It's an expression used to describe taking steps to help an injured worker get back to work quickly, safely and, if necessary, with assistance. A Return-To-Work program specific to your company can help injured workers get back to the job faster. The best time to set up a Return-To-Work Program is before a worker is injured.

#### Why Return to Work is Important

Numerous occupational health studies identify a connection between the duration of a workers' compensation claim and long-term loss of earning power. The longer injured workers remain off work, the harder it is for them to return to their original job and income. Partial wage-replacement (time-loss) benefits will never completely replace the full income. Lengthy time-loss claims drive up workers' compensation rates for the employer and increase the cost of operating the workers' compensation system.

#### Why Establish a Return-to-Work Program?

Employers of all sizes need to pay attention to safety and the cost of workplace accidents to workers as well as to the employer's bottom line. While accident prevention is the best way to reduce overall injury costs, an effective workplace *Return-to-Work* Program is the best way to manage cost and improve recovery after an injury has occurred.

The longer an injured employee is absent from the workplace, the higher the costs will be to you, the worker and L&I.

Additional costs include:

- Lost productivity
- Decreased morale
- Costs of hiring & training replacements
- Overtime
- o Increased premiums

#### How is *Return-to-Work* a benefit to Employers?

By creating a *Return-to-Work* program, employers can experience lower Worker's Comp costs and avoid long-term disability for their injured workers by providing opportunities for these workers to continue to do productive work while recovering.

#### **Early Return to Work (ERTW) Teams**

You can contact Early Return to Work (ERTW) staff for assistance in developing a list of modified jobs or assistance in returning someone to modified duty.

Members of ERTW are experts in several fields. They are Vocational Services Consultants, Therapist Consultants and Nurse Consultants located in L&I field offices across the states.

These experts are trained professionals who know how to talk with doctors and help employers implement medically appropriate return-to-work options.

There is a sample Injured Worker Packet included in this toolkit for your review and convenience (Appendix B).

ERTW staff partner with other L&I resources to provide specific services for the worker and employer; these may include:

- A Risk Management Specialist can explain the financial benefits of return to work. This specialist
  can show an employer how a workers' compensation claim affects the company's "experience
  factor" and premiums.
- A safety consultant can provide an on-site consultation for an employer who wants to prevent future worker injuries by improving workplace safety.
- ERTW staff design RTW programs and create job descriptions to identify light duty work, etc.

Job modification funds from L&I may be available. These funds help an employer cover the costs of modifying a workstation to allow an injured worker to return to his or her original job.

#### **Stay at Work Program**

#### Paying employers to help injured workers stay on the job

Stay at Work is a financial incentive that encourages employers to bring their injured workers quickly and safely back to medically approved light-duty or transitional work by reimbursing them for some of their costs.

Eligible employers can be reimbursed for:

- 50% of the base wages they pay to the injured worker.
  - o For up to 66 days in which work was actually performed per claim. Fewer than 8 hours still counts as one day.
  - Within a consecutive 24-month period.
  - Up to \$10,000 per claim.
- Some of the cost of training, tools or clothing the worker needs to do the light-duty or transitional work.
  - o Training fees or materials, up to \$1,000 per claim. Example: Tuition, books, or supplies.

- o **Tools** up to \$2,500 per claim. Example: Special wrench or keyboard tray.
- o **Clothing** up to \$400 per claim. Example: Steel-toed boots.

For more information refer to the "Complete Stay at Work Guide for Employers" found online at <a href="https://www.lni.wa.gov">www.lni.wa.gov</a>

#### **10 Steps to Effective Return-to-Work**

Samples and templates as identified are included in the appendix for your review and convenience.

#### 1. Establish a written policy for Return-to-Work (Appendix A)

- a. Begins with a commitment from owner and top management and supervisors.
- b. Educate employees about their role in your program.

#### 2. Designate a claim coordinator

a. Appoint a claim coordinator with the authority to drive the program.

#### 3. Document physical descriptions for all jobs.

#### 4. Identify light duty jobs before an injury occurs

- a. Ask workers for suggestions
- b. Consider adapting existing jobs or reorganizing current job tasks
- c. View the Sample Light Duty Job Options (Appendix C)
- d. When the doctor approves the light duty job(s), offer the injured worker the job via a written job offer.

#### **5.** Create an injured worker packet (Appendix B)

- a. Cover letter and instructions for injured worker.
- b. Light duty job description.
- c. Formal job offer to injured worker.

#### 6. Get medical treatment for the injured worker right away

- a. Give the worker an injured worker packet (Appendix B)
- b. Accompany injured worker to the initial doctor's visit
- c. Support worker during the entire return-to-work process
- d. Job Description job of injury

#### 7. Get injured worker back to work as soon as possible

- a. Offer light duty jobs that meet restrictions identified by the doctor.
- b. Maintain contact with doctor; obtain their approval for an changes in job duties
- c. Notify claim manager if you are not able to accommodate ongoing or permanent restrictions
- d. Send a copy of the doctor approved light duty job and accepted job offer to claim manager

#### 8. Use the Stay at Work Program

- a. 50% of base wages (up to \$10,000) for light duty
- b. Some of the cost of training, tools or clothing the worker needs to do the light-duty or transitional work (up to \$3,900).

- 9. Establish procedures for reporting near misses and injuries
- 10. Conduct an accident investigation
  - a. Determine root causes and identify solutions to prevent similar incidents

#### **Light Duty Examples and Options**

Below is a list of some light duty options in the logging field. The job duties with an asterisk have a Light Duty Job Description found in this toolkit in Appendix C. (Online tools coming soon at <a href="https://www.loggersafety.org">www.loggersafety.org</a>).

- Answer phones
- Clean saws/equipment
- Clean tools
- Complete safety inspection
- Dispatch calls
- Drive a vehicle, run errands
- Enter data into computers (production, log quality, etc)
- Fire & Safety Watchman\*
- File paperwork, make copies, shred documents, sort & deliver mail, etc.
- Fill out truck tickets in landing
- Flagging roads for cutting or skidding\*
- Fuel and grease equipment
- Get fuel
- Grind chains
- Inventory parts, supplies and/or tools
- Mechanic (modified duty)\*
- Night watchman\*
- Office Assistant\*
- Office & Field Helper\*
- Open gates
- Parts assistant\*
- Pilot escort\*
- Processor Operator\*
- Paint and brand log trucks
- Safety watchman\*
- Saw maintenance & Chain Sharpening\*
- Sedentary Desk Work\*
- Shop helper\*
- Truck Dispatcher parts runner\*
- Train other employees on specific job tasks or safety topics
- Update Emergency Response Plan and other policies and procedures
- Update safety program
- Wash company vehicles
- Work normal job but with specific limitations

#### **Who to Contact**

L&I has teams that can help collaborates with the employer, health-care provider, and worker to explore possibilities for returning to work as early as it is medically appropriate. Get in touch with an Early Return-To-Work specialist in your region for assistance.

Region	Location	Contact Number
Region 1	Bellingham	360-647-7300

## **Appendix**

- Appendix A: Return to Work Program Sample
- Appendix B:Injured Worker Packet
- Appendix C: Sample Light Duty Job Descriptions

## Return to Work Program Sample

#### **I. Policy Statement**

(EMPLOYER NAME) recognizes the need to provide Light Duty, Temporary Transitional work to employees who are unable to perform their regular duties due to occupational injury or illness.

#### II. Scope

This program applies to all employees who sustain an occupational illness or injury. Employees will receive assignments on availability.

#### **III. Definitions**

**Occupational illness/injury:** For the purposes of this program, an occupational injury or illness means an injury or disease arising out of the employment with (EMPLOYER NAME) and compensable under the workers' compensation laws of the State of Washington.

#### IV. Goal

- To provide work for employees with job-related injuries or illnesses that restricts regular job performance
- To assist employees in the transition from injury or illness to recovery while continuing to be a productive part of the work force
- To prevent the deterioration of employees' work skills, health, and attitude that may result from prolonged work absence
- To demonstrate the organization's commitment to employee recovery
- To minimize the loss of productivity

#### V. Roles and Responsibilities

(EMPLOYER NAME) recognizes the need to provide Light Duty, Temporary Transitional work to employees who are unable to perform their regular duties due to occupational injury or illness.

#### A. Employer/Top Management Roles and Responsibilities

- Update written policy with clearly defined procedures
- Hold all managers/supervisors/employees accountable for their participation in the program
- Designate a Claim Coordinator

#### **B. Claim Coordinator Responsibilities**

- Understand and promote the Return-to-Work program
- Cover Light Duty, transitional work and instructions on using Injured Worker Packet and its' location during New Employee Orientation

#### APPENDIX A

- Update Injured Worker Packet as needed (assistance available through L&I, page 10 of toolkit).
- Send light duty and job of injury descriptions to providers.
- Review the accommodation with the manager/ supervisor prior to the injured/ill worker starting work
- Ensure a Job Offer Letter is completed by the injured worker when released to transitional work.
- Notify the Claim Manager of the employee's acceptance or rejection of the Temporary Transitional work
- Document the Temporary Transitional work duties to show compliance with physician's recommendations
- The Claims Coordinator will assist the supervisor (prior and current) in maintaining weekly contact with injured worker while on Temporary Transitional work assignments.
- The Claims Coordinator will assist the supervisors in monitoring the Temporary Transitional work assignment for appropriateness and communicate any concerns to the manager/supervisor.
- If the injured worker is not improving over a 60 day period of transitional duty the Claims Coordinator may contact the Claims Manager and/or requests assistance from a VSS at the Dept. of Labor and Industries.
- Send medical practitioner's approved light duty, Temporary Transitional Duty to the WSAW for reimbursement
- Follow HR protocols.

#### C. Manager/Supervisor Responsibilities

- In the event of an injury provide assistance with medical care as needed
- Understand and support the company's written policies and procedures
- Complete the accident investigation as soon as possible after the injury and forward report to Claim Coordinator
- Meet with Claim Coordinator & employee to review the restrictions from provider and identify accommodations for the Temporary Transitional work assignments.
- Maintain daily/weekly contact with employee
- Assure that employee does not exceed work restrictions
- Follow HR protocols.

#### D. Employee Responsibilities

- Follow procedures for reporting all injuries and illnesses immediately
- Communicate with managers/supervisors about your ability to return to work
- Cooperate with the medical provider regarding ability to return to work
- Work within the physical capabilities outlined in the Temporary Transitional work plan by the medical provider
- Support coworkers and provide a positive environment when injured employees return to Temporary Transitional positions
- Abide by the work/safety rules at the location of Temporary Transitional work assignments

#### **APPENDIX A**

#### **E. Expectations of Medical Providers**

- Communicate verbally and in writing with Claim Coordinator, Claim Manager and manager/supervisor regarding employee status.
- Promote Early Return-to-Work with injured employees
- Explain any transitional work restrictions to the employee, Claim Coordinator and Claim Manager, along with clarification of what the employee can do.

#### **VI. Post-Injury Procedure**

- 1. Send employee for medical treatment with an *Injured Worker Packet* to the physician's office at the time of the initial visit. The prepared packet should include:
  - Letter to the treating doctor explaining the Return-to-Work program
  - List of Light duty, Transitional Temporary work available
  - Activity prescription form
  - Washington Stay at Work Brochure
  - FileFast Information

See: Supervisors responsibilities

#### VII. Light Duty, Temporary, Transitional Work Job Assignment

- 1. (CONTACT NAME AND TITLE) will review restrictions and review the temporary, transitional work assignment.
- 2. Provide Transitional Duty Job Offer Letter
  - a. A light duty, Temporary Transitional work assignment will be determined based on job description and the injured worker's physical capabilities as determined by their medical practitioner.
  - b. If the injured worker fails to take an Injured Worker Packet one will be sent to the physician for verification and approval by the Claims Coordinator
    - i. The employee will be contacted regarding the position via phone and mail
    - ii. Employee will have\_\_\_\_\_ days (if internal position) to accept the position
    - iii. Claim Coordinator will contact the employee 2 days before the deadline to determine acceptance and provide instructions
    - iv. If injured worker fails to report to work contact the claim manager.

If the employee refuses to work in the Return-to-Work program, Time Loss Benefits may not be payable by the Dept. of Labor & Industries.

All documents will be sent to the Dept. of Labor and Industries with the claim number written in the upper right corner.

Under the Return-to-Work program, (EMPLOYER NAME) does not intend to create long-term jobs for accommodation of permanent disability. The length of a Light Duty, Temporary or Transitional work

#### APPENDIX A

assignment is based on several factors including medical recovery, compliance with medical treatment plan, physician input and availability of work.

#### **VIII. Conclusion of Temporary Transitional Work Assignments**

Temporary Transitional work assignments conclude when one of the following occurs:

- 1. Upon receipt by (EMPLOYER NAME) of a medical report stating the employee can return to regular duties.
- 2. Upon receipt by (EMPLOYER NAME) of a medical report stating that the employee will be permanently unable to return to the job performed at the time of injury.

Note: A successful Return-to-Work program involves having a formal documented procedure of the process. In determining the procedures, an organization should tailor them to fit their company standards.

## Sample Cover Letter/instructions for Injured Worker

Company name & address

Contact name & number

Dear Employee,

We are sorry to learn of your injury and your recovery is important to us. (Company Name) is committed to ensuring the safety and health of our employees, and it is important to learn how your injury occurred so preventative measures can be taken in the future.

(Company Name) has a Temporary Transitional duty program to aid in the recovery process following an on-the-job injury. Should your injury require that you work a transitional **temporary** job during recovery please help us by clearly communicating any injury-related problems you have performing your assigned duties.

Below is a list of what needs to be done immediately following every workplace injury.

#### Injuries not requiring immediate medical care:

The injured employee and supervisor must complete the company's Accident Report regardless of whether medical care is needed at the time. The reasons for completing the required paperwork are

- By reporting injuries (Company Name) can correct unsafe conditions or actions
- The injury may require medical care at a later date
- Should the injury require medical care at a later date (Company Name) will have the required information necessary for processing an L&I claim and completing our OSHA log.

#### Injuries requiring medical care:

- The Accident Report must be completed.
- If medical care is needed the employee must take the Injured Worker Packet to the doctor's office
  and inform the doctor that (Company Name) has a return to work program and may provide
  temporary transitional work during recovery.
- The employee must return the *Transitional Duty Form* and the *Activity Prescription Form* the same or next day of their doctor's visit to their supervisor.

#### If released to modified duty:

- The Claims Coordinator will provide you with a Job Offer Letter prior to starting the next shift.
- The supervisor must not assign work that exceeds restrictions, and you must work within your limitation as outlined by the attending physician.
- At each follow-up appointment you will provide the doctor or other medical practitioner with a new Transitional Duty Form and Activity Prescription Form for updating. The updated forms must be provided to your supervisor upon returning to work.
- All modified duty jobs are <u>temporary</u> in nature and (Company Name) anticipates you will be able to return to the job-of-injury.

Attending Physician

(Required to be approved by Doctor)
Company name & address Contact name & number
Employee: Job Title: Date of Injury:
Dear Attending Physician:
We are a proactive company and care about our workers. We recognize early Return-To-Work as being important to the workers' psychological, financial, and physical wellbeing.
Your assistance is appreciated!
We have also included the job of injury, and a job description for a <i>modified / light duty / transitional</i> position we have available if our employee is not released to their job of injury. Further adjustment to these positions may be possible if needed.
Please complete the Activity Prescription Form and include any comments on our employee's ability to work. Please give a copy of the completed form to our employee or fax to (Add Number).
Please call if you have any questions.
Sincerely,

Date
