

Hazardous Drug Advisory Committee

Meeting Summary

Tukwila Service Location
12806 Gateway Dr S Tukwila, WA 98168
October 24, 2016,
9:00 am to 12:00 pm

Welcome and Introductions

DOSH Update – (standing agenda item)

- Alan Lundeen and Jeff Killip
- CIH John Stebbins reported there has only been one inspection since March that was of this rule. Four inspections total since this rule came out.
- Reviewed and discussed Charter for the committee
 - The charter was reviewed and will be updated. The updated charter will be sent to the listserv and then allowed 2 weeks before the charter changes will be excepted. Charter should be finalized within the next four weeks.
- Vote for the new Committee Co-Chair
 - Alex Truchot was elected as the Committee's Co-Chair
- Future meeting dates for the Hazardous Drug Advisory committee
 - The decision is to have meetings every six months

Roundtable discussion

- **Grants for safety SHIP grants**
 - The Washington State Pharmacy Association was granted a SHIP grant to develop a testing procedure for verifying that partially recirculated biosafety cabinets protect workers as well as 100% exhausted cabinets. This was needed because the Hazardous Drug rule amendment in June of this year allowed for the use of partially recirculated cabinets if the healthcare agency could demonstrate employee protection. It was discovered that they were not any tests available so the grant is paying for the development of the test. Three different healthcare agencies are participation with both types of hoods being tested at each organization.

Next Meeting: April 12, 2017 9:00 am to 12:00 pm
Tukwila service location 12806 Gateway Dr, S
Tukwila, WA 98168

Future meetings

- **October 10, 2017 Tukwila**
