Unknown Industry, Not Specified	107	84	3	2	16	0
<b>Total</b>	<b>23,115</b>	<b>18,823</b>	<b>251</b>	<b>73</b>	<b>20,673</b>	<b>16</b>

1. Industry sectors defined using the North American Industry Classification System (NAICS). Educational Services is predominant for university-affiliated hospitals. Administrative & Support & Waste Mgmt. is predominant for hospital and nursing home administrators.
2. Includes claims adjudicated as Accepted, Rejected, Provisional, and claims Not Yet Allowed.
3. Number of positive tests are likely an undercount, as test results are not always known, particularly for self-insured claims. We linked L&I claim records with COVID-19 data from the WA Department of Health to identify 0.9% of the positive tests.

Claims are confirmed for known or suspected exposure to or disease from COVID-19 at work. Counts of quarantine, laboratory tests, hospitalization, and fatal are for all claims filed. Affected workers are under-represented in workers' compensation data, particularly outside of the healthcare sector. Information about workers' compensation coverage can be found on L&I's [COVID-19 Resource](#) page. [Methods for COVID-19 Surveillance](#) details how this table was derived. Key findings from this surveillance system can be found in the report [COVID-19 Surveillance in Washington Workers' Compensation Data: March 2020 to June 2021](#). Washington's [Confirmed Cases by Industry Sector Report](#) summarizes all positive cases in the state by industry and includes race and ethnicity. The industry report is periodically updated and posted to the WA Department of Health's [coronavirus webpage](#).
