I oppose making masking a requirement for outdoor workers. In my experience almost no workers willingly agree to wear a mask and, if they are forced, they find every opportunity to work around the mandate by moving the mask above their mouth or below their nose. This has become obvious during covid.

Employers are not the police and we should not be expected to force our employees to wear masks outdoors. The workers are able to make their own choices and while we can provide the information to allow them to make an informed choice it should be their choice. These are not children we have working and they should not be forced by you or your compatriots to wear a mask against their will. Let people make their own choices. You do not need to force them because you think you know what is best for them. You don't!

Sincerely Steve Walser
