34 workers died on the job in the first half of 2018.\textsuperscript{2,3}

The highest number of worker deaths occurred in the transportation and warehousing industry.

The most frequent incident type was falls.

All five construction worker deaths were due to falls.

There were five homicides in the first half of 2018 – equal to the number that occurred in all of 2017.

1. WA FACE collects information on occupational fatalities in WA State. It receives funding from the National Institute for Occupational Safety and Health (NIOSH).
2. Data are preliminary and are current as of July 6, 2018. Changes to fatality information may occur due to late reports or updates.
3. Numbers reflect date of fatal incident.
